INTRODUCTION

This replacement guide will show you how to replace the batteries in a Fujifilm FinePix S5100 camera.

You will need 4 AA Alkaline or Lithium batteries. Be sure to properly dispose of or recycle your batteries in accordance with your state law.

Step 1 — Battery

- ⚠ Ensure your camera is in the off position.
- Orient the camera upside down with the lens facing to the left and the battery compartment facing directly toward you.

Step 2

- Open the battery door by pushing down and in the direction of the arrow on the door.

Step 3

- Remove four AA batteries from the camera.

To reassemble your device, follow these instructions in reverse order.
