Step 1 — Battery

- Power off the camera.

⚠️ Leaving the camera on while removing presents the risk of electrical shock or permanent data loss.
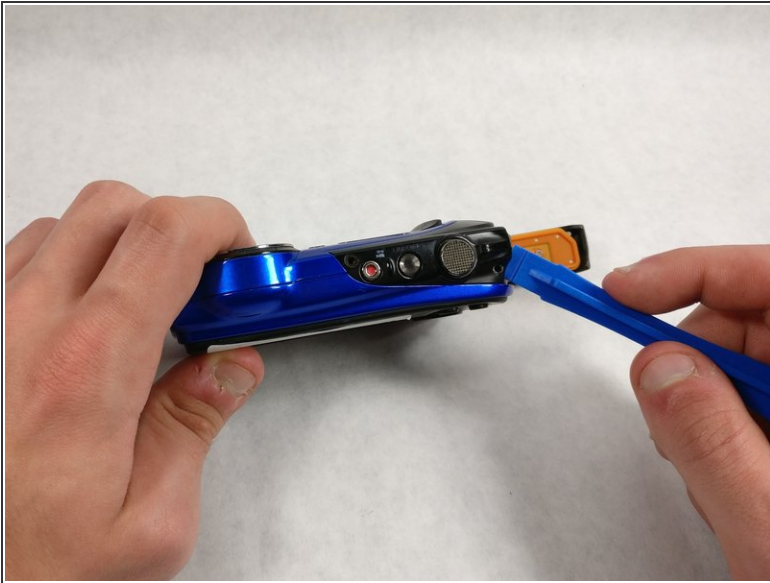

Step 2

- Push down on the center button and turn the dial on the side counterclockwise to open the battery compartment.

| |

Step 3

- Pull the orange tab towards the hinge to release the battery.

Step 4 — Button

- Pry the black button plate off using a plastic opening tool.

- ⓘ Buttons can fall out easily.

- ⓘ It's easiest to start from the side exposed by an open battery compartment.

- ⚲ When putting this plate back on, orientate the buttons as shown to properly fit back into the plate.

Step 5

- Pull the three buttons out.

To reassemble your device, follow these instructions in reverse order.
