

Fujitsu Siemens Esprimo Mobile v5515 Hard Drive Replacement

In this tutorial i'll show you how to replace the hard drive in the Fujitsu Siemens Esprimo Mobile v5515.

Written By: storm

TOOLS:

- [Phillips #00 Screwdriver](#) (1)
-

Step 1 — Hard Drive

- Turn the laptop over so that the bottom of the laptop faces you.

Step 2

- Locate the hard drive cover and remove the screw.

Step 3

- Now you can use your finger to pull the cover off.

Step 4

- Pull on the pull tab to release the hard drive.
- Now you can take the hard drive out of the laptop.

Step 5

- There is a screw on each corner of the hard drive bracket. To take the hard drive out of its bracket you need to remove the 4 screws.
- ⚠ Do not take the screws out of the hard drive itself, only from the bracket.
- With the screws removed the drive slides out of the bracket.
- Now you can replace the hard drive with a new one.

To reassemble your device, follow these instructions in reverse order.
