Game Boy Color Screen Cover Replacement

Replacing a screen cover on a Game Boy Color.

Written By: Nick Katsantones

INTRODUCTION

The screen cover is the plastic window in front of the LCD screen. This guide shows how to replace the screen cover of the Game Boy Color.
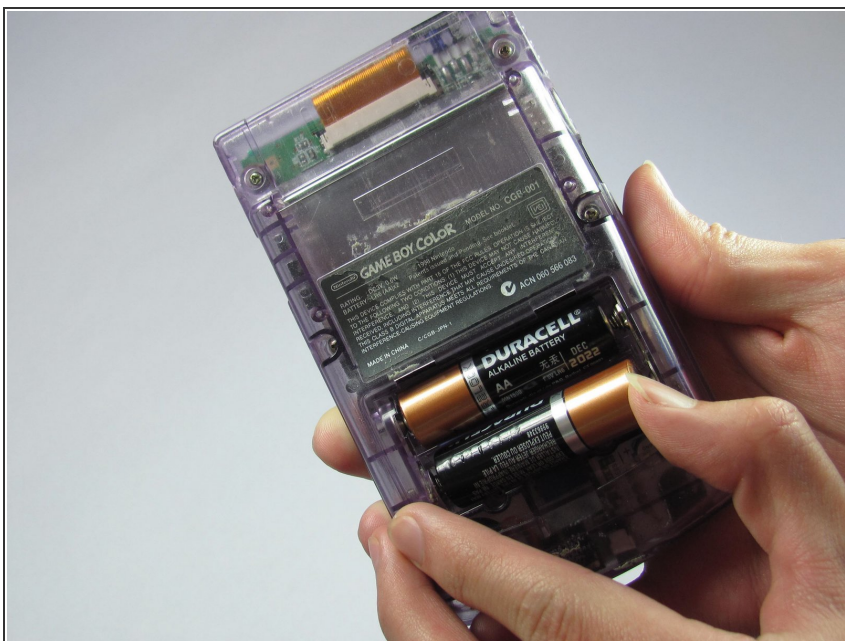

🔧 TOOLS:

- Phillips #1 Screwdriver (1)
- Razor Blade (1)
- Spudger (1)
- Tri-point Y0 Screwdriver (1)

Step 1 — Battery

- Locate the battery compartment on the back of the Game Boy Color.

- Push down on the tab and hinge the cover downwards and outwards to remove the battery cover.
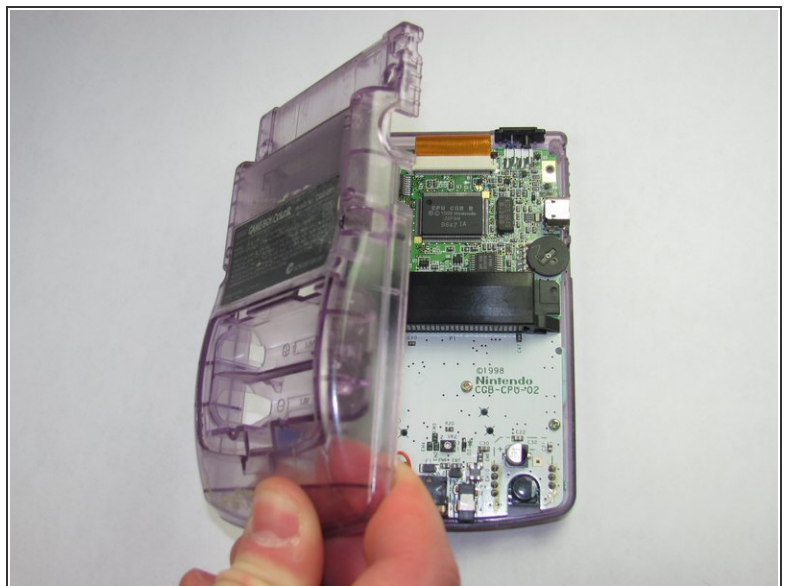

Step 2

- Remove the batteries from the battery compartment.
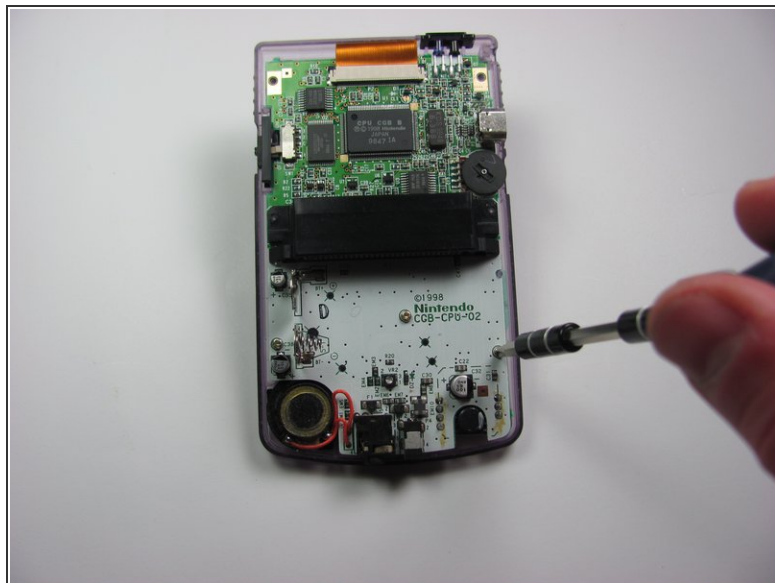

Step 3 — Back Housing

- Using a Y1 screwdriver, remove the six screws on the back of the device as pictured. The bottom two screws are located inside of the battery compartment.
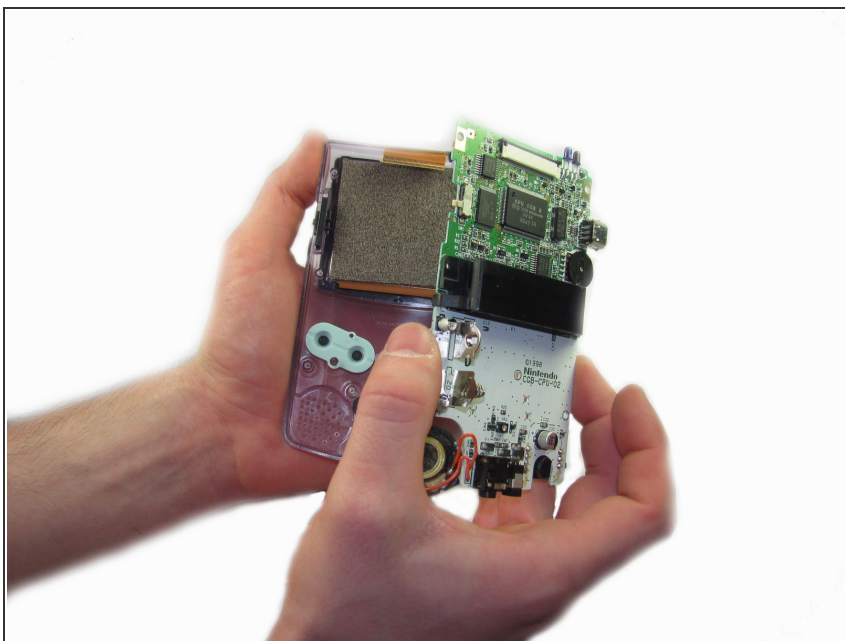

Step 4

- Gently lift and separate the back housing from the rest of the device. Now you've got the back housing out!

Step 5 — Motherboard

- Using the Phillips #1 screwdriver, remove the 3 screws shown in the picture.

Step 6

- Gently lift the motherboard from the front housing.

Step 7 — Screen Cover

- Carefully slide a razor blade under one of the corners of the screen cover.

Step 8

- Carefully lift up on the corner of the screen until you can grab the corner with your fingers.

- Continue gently pulling up on the cover until it is fully removed.

To reassemble your device, follow these instructions in reverse order.
