

# Gateway NV52 Hard Drive Compartment Replacement

Follow these steps to easily remove the Hard Drive Compartment.

Written By: Tim En

## INTRODUCTION

Access to the Hard Drive Compartment will require some tool work.

### TOOLS:

- Phillips #0 Screwdriver (1)

## Step 1 — Base Cover

- Remove the five identical 3/16" Phillips screws that secures the hard drive and memory cover using a Phillips #0 Screwdriver.

## Step 2

- Lift up the base cover from the top with your hands to a 90 degree angle.
- Remove the base cover and place it in a safe and dry place.

## Step 3 — Hard Drive Compartment

- Remove the 1/4" Phillip screw located at the top right of the Hard Drive using a Phillips #0 Screwdriver

## Step 4

- Remove the Hard Drive component from its compartment. To do so, slide the component downward away from the battery pack.
- Lift the Hard Drive to a 90 degree angle and out of its slot.
- Place the Hard Drive in a designated zone.

To reassemble your device, follow these instructions in reverse order.
