

Getting started with ifixit

This is the guide to help new iFixiteers to have good questions and receive good answers, and to learn all the tips and tricks!

Written By: George A.

A screenshot of the iFixit website. At the top right, there is a red button with the text "George Log Out" and a small American flag icon. The main content area features a large image of a person's hands holding a Nikon DSLR camera, showing its internal mechanical components. To the left of the camera image is the iFixit logo and the tagline "The free repair guide for everything, written by everyone." Below the tagline is a search bar with the placeholder text "What would you like to fix today?" and a magnifying glass icon. At the bottom of the page is a dark navigation bar with links for "Repair Guides", "Answers Forum", "Parts & Tools Store", "Teardowns", and "Translate".

Required Parts & Tools

Essential Electronics Toolkit

Our most economical do-everything toolkit.

Pro Tech Toolkit

The one kit you need to tackle any electronics repair challenge

 **TOOLS:**

- [Brain \(1\)](#)

Step 1 — Your Account

- First, create your iFixit account. At the upper right corner of the iFixit homepage, click the button that says "join." Fill out the required info then click "Create my account."
- Then, you should edit your account to include info about you. Go to your account and write a short "about." Don't forget to include a picture and @username!

Step 2 — Your first Question

- Now, you'll want to write your first question. Click the "Answers forum" button.
