

GoPro Karma Stabilizer Replacement

This guide will instruct you on how to remove and replace the stabilizer on a GoPro Karma

Written By: Joe Tatis-Flanagan

INTRODUCTION

The GoPro Karma stabilizer is used to capture smooth and stable videos and photos. Use this guide to remove and replace the GoPro Karma Stabilizer.

Step 1 — Stabilizer

- Locate stabilizer collar's unlock and lock symbols. Twist the collar counterclockwise to unlock the stabilizer from GoPro Karma body.
- ⓘ Place the GoPro Karma on a stable surface with the legs folded in and the stabilizer facing towards yourself.

Step 2

- Remove the stabilizer by pulling the entire stabilizer out of the drone body.

To reassemble your device, follow these instructions in reverse order.
