

HP 15-ac121dx Wifi Card Replacement

The guide provides a step-by-step process for the replacement of the Wifi card on an HP 15-AC121DX.

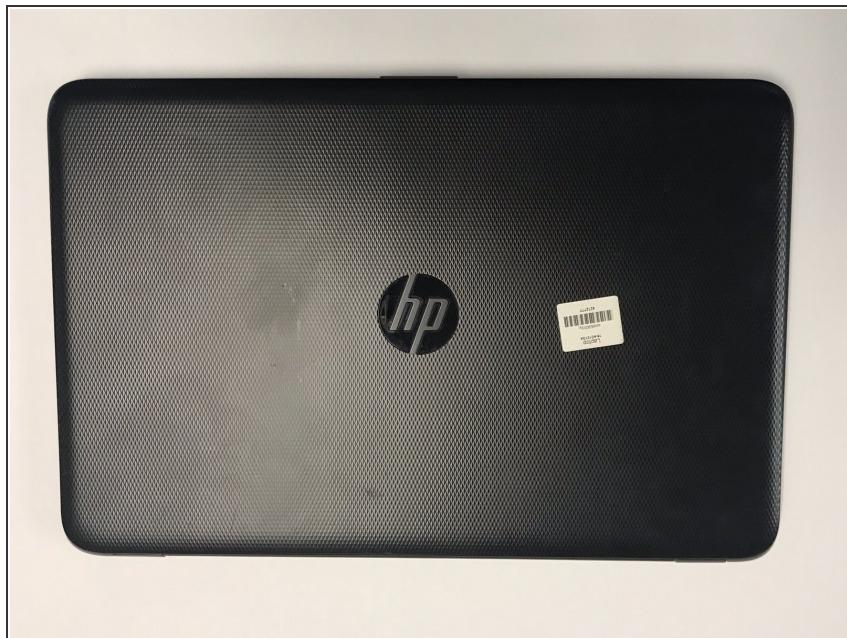

Written By: Daniel Adams

 **TOOLS:**

- [iFixit Opening Tools \(1\)](#)
- [Phillips #000 Screwdriver \(1\)](#)
- [Metal Spudger \(1\)](#)

Step 1 — Battery

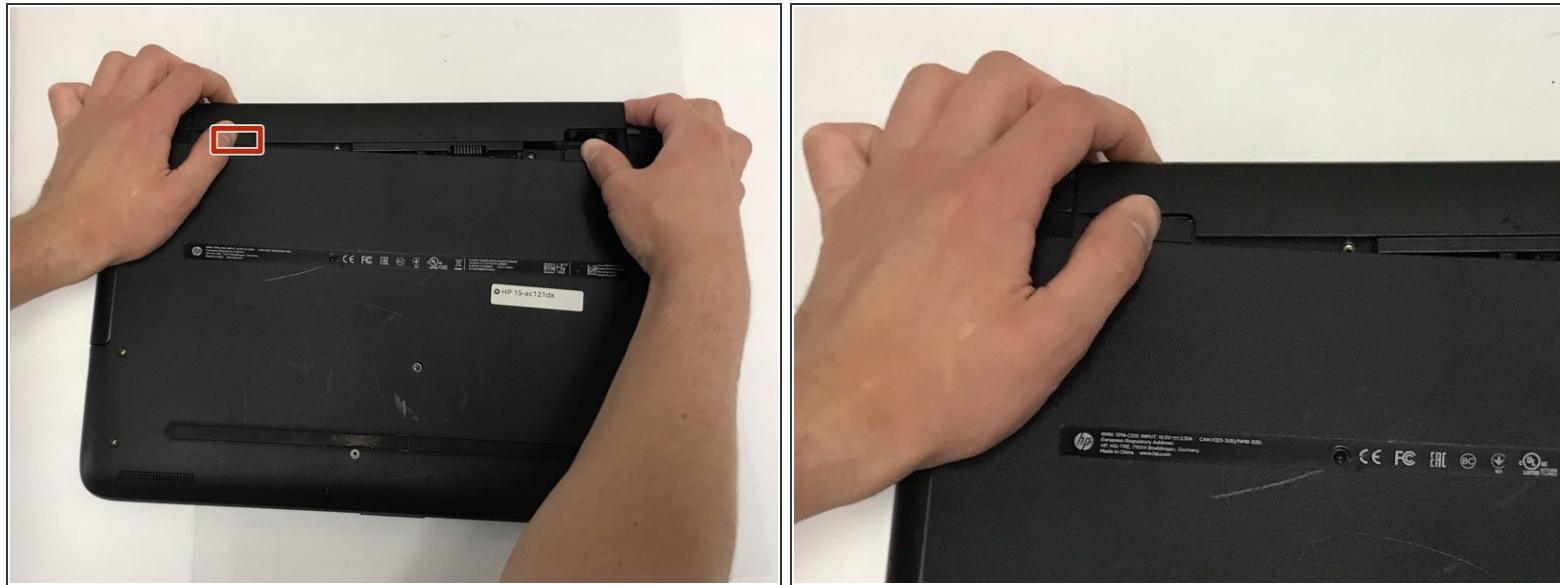

- Remove all external devices from the computer.
- Remove the charging cord from the computer.

Step 2

- Turn off the computer by holding the power button.

Step 3

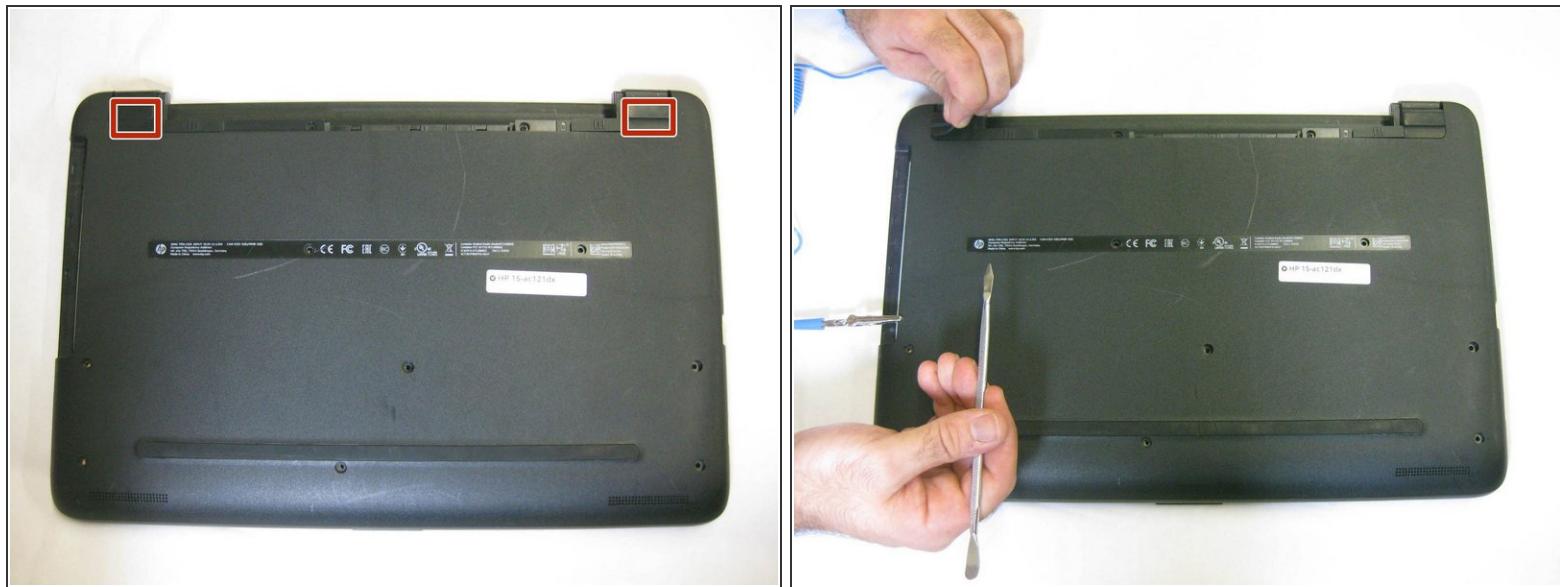

- To remove the battery, slide the left slider on the back to the unlocked position.

Step 4

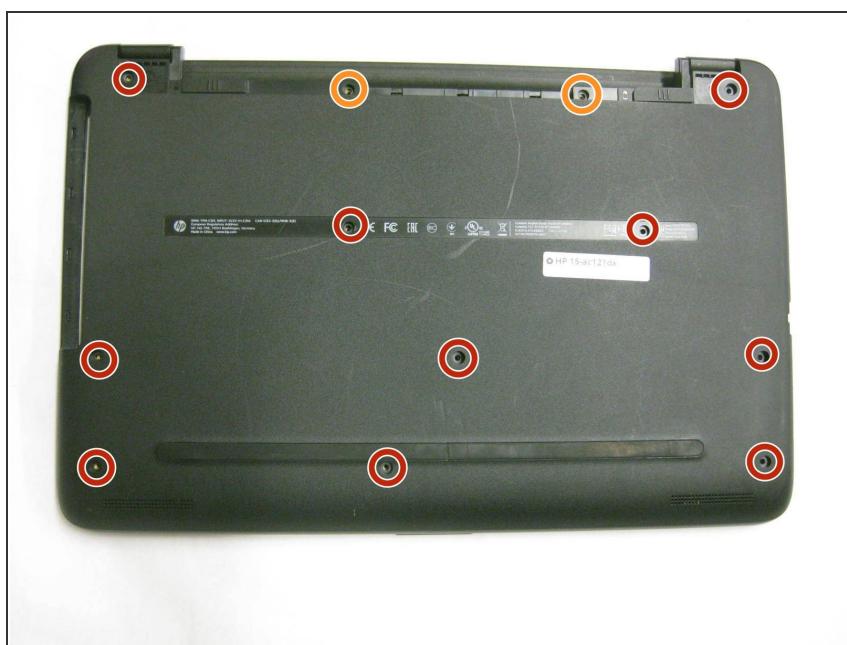

- Push the right slider inwards.
- Remove the battery out by pulling straight out and to the right.

Step 5 — Back Panel

- Place the laptop with the back panel facing up and the battery compartment facing away from you.
- Using a spudger, carefully remove the rubber feet on both sides of the battery compartment.

Step 6

- Using a Phillips #000 screwdriver, remove the ten 7mm screws on the back panel.
- Using the same screwdriver, remove the two 5mm Phillips #000 screws on both sides of the battery compartment.

Step 7

- With the same orientation as the previous step, locate the bottom left corner.
- Using a plastic opening tool, carefully pry off and remove the back panel.

Step 8 — Wifi Card

- With the back panel removed, orient the laptop with the fan located in the bottom left corner.
- Locate the WiFi card.
- Using a Phillips #000 screwdriver, remove the 2mm screw securing the WiFi card in place.
- Carefully remove the WiFi card.

To reassemble your device, follow these instructions in reverse order.
