INTRODUCTION

Are the keys of your laptop sticking, broken, or unresponsive? The only tool necessary is a spudger!

🔧 TOOLS:

- Spudger (1)

This document was generated on 2019-11-06 03:50:14 PM (MST).

Step 1 — Key

- Carefully wedge the end of the spudger underneath the desired key and gently pry it up.

Step 2

- Once the key has popped up on all sides, remove it carefully and clean any possible residue.

To reassemble your device, follow these instructions in reverse order.
