

HP 17-bs049dx Back Panel Replacement

This disassembly guide will show you how to disassemble a back panel for the HP 17-bs049dx.

Written By: Megan Paige

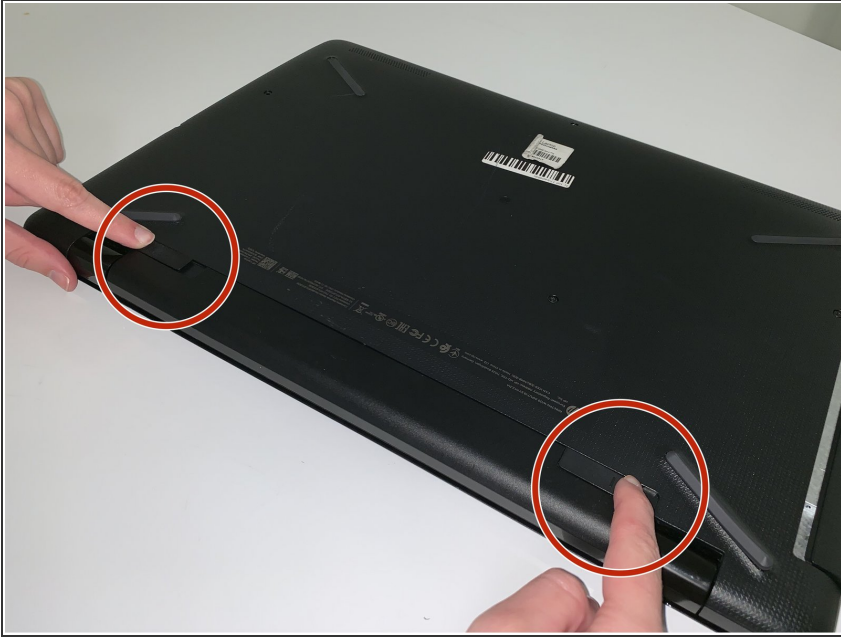

INTRODUCTION

During the process, be careful with the placement of removed screws. This back panel disassembly is required to access all internal components.

TOOLS:

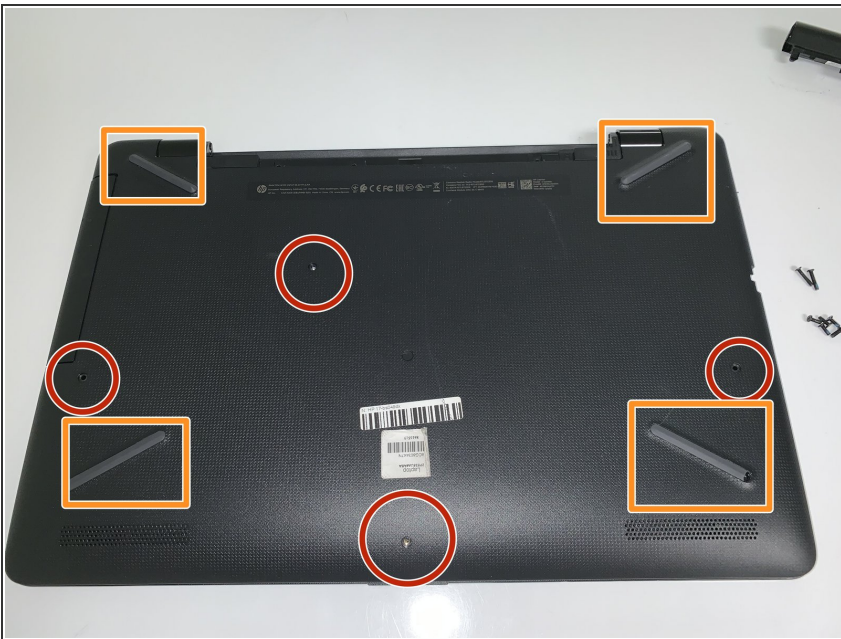

- [Phillips #0 Screwdriver](#) (1)
 - [Metal Spudger](#) (1)
-

Step 1 — Battery

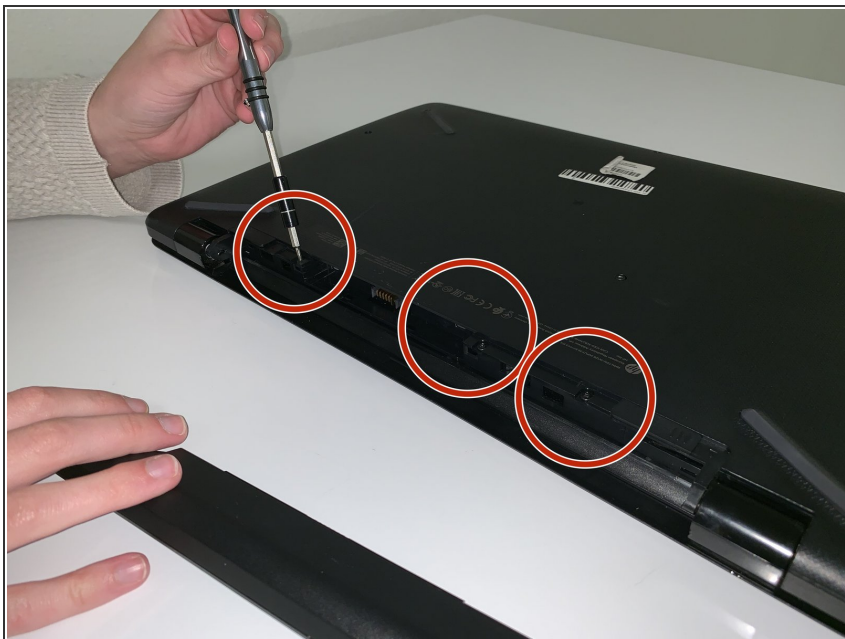

- To remove the battery, simply push the tabs towards each other.
- ⚠ The battery will come out with force, be sure to keep anything fragile away from the laptop during this process.

Step 2 — Back Panel

- Remove the four screws (13.7mm) with a Phillips #0 screwdriver.
- Be sure to lift all four rubber tabs to access screws (7.51mm) underneath.
- ⚠ Rubber tabs will require force to access screws.

Step 3

- Use the Philips 0 screwdriver to unscrew the screws (7.51mm) that were underneath the battery.

Step 4

- Pull outwards on the disk reader to remove from main frame.

⚠ This removal will require force.

⚠ All screws must be removed before removing disk reader.

Step 5

- Lift back panel to access internal components.

⚠ You will need to use force to pry it open.

To reassemble your device, follow these instructions in reverse order.
