

# HP 550 Notebook RAM memory replacement

Follow this guide to replace the RAM

Written By: Smilzo

## INTRODUCTION

Follow this guide to replace the  
RAM

---

 **TOOLS:**

- Cacciavite con testa a croce n. 2 (1)

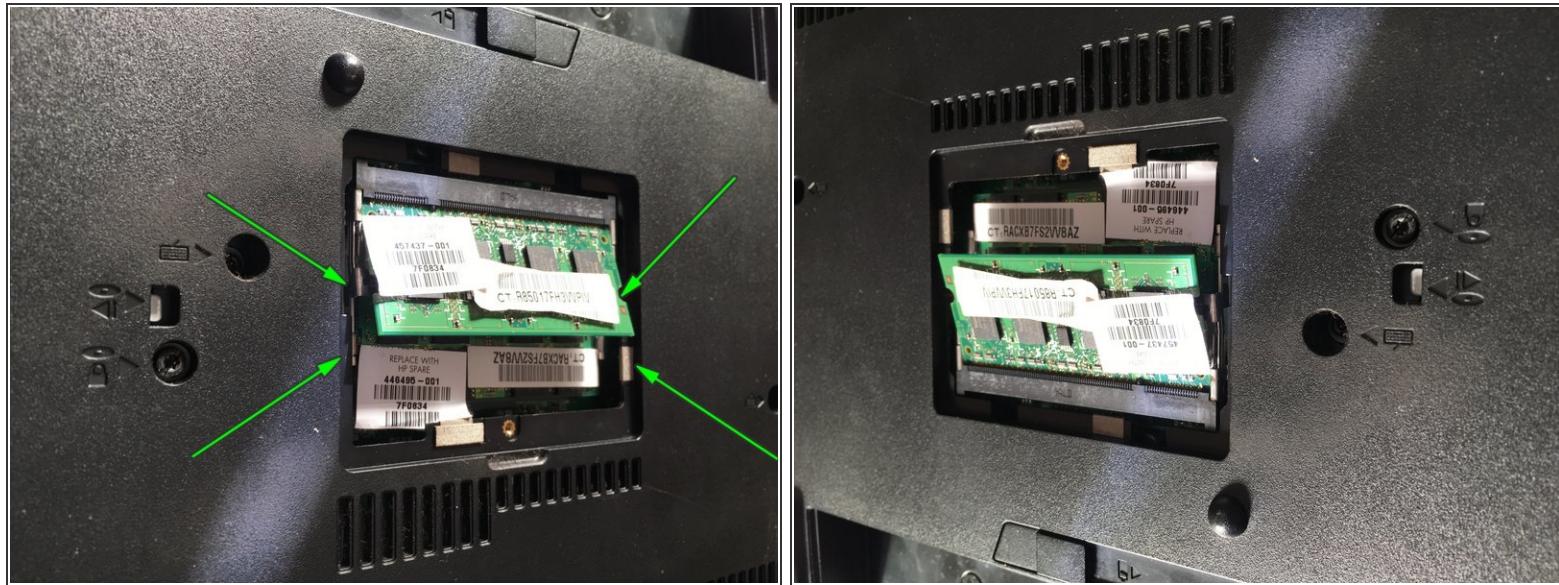

---

## Step 1 — RAM memory

- Remove the battery.
- Unscrew the locking screw on the RAM memory access door

## Step 2

- Widen the metal hooks horizontally enough to allow the memory card to free itself from the housing by getting up
- Repeat the same action for the underlying ram memory card

To reassemble your device, follow these instructions in reverse order.
