HP Compaq 2510p Power/audio bar Replacement

This guide will show step-by-step instruction depicting the replacement of your laptops power/audio bar.

Written By: Derek Kohansky

INTRODUCTION

This guide will show step-by-step instruction depicting the replacement of your laptops power/audio bar.

🔧 TOOLS:

- Phillips #00 Screwdriver (1)
- Flathead 3/32" or 2.5 mm Screwdriver (1)

This document was generated on 2019-09-19 04:15:51 PM (MST).

Step 1 — Power/audio bar

- ● Locate the 4 screws in the four corners of the laptop screen.

- ⓘ The screws may be hidden underneath a small rubber pad.

- ⚠ Be sure to ground yourself and tools before working near electronics.

Step 2

- ● Use a Flathead screwdriver to remove the 4 rubber covers over the 4 screws referenced in step 1.

This document was generated on 2019-09-19 04:15:51 PM (MST).

Step 3

● Once the rubber has been removed a screw will be revealed. Remove each of the four screws with your Philips head screwdriver.

Step 4
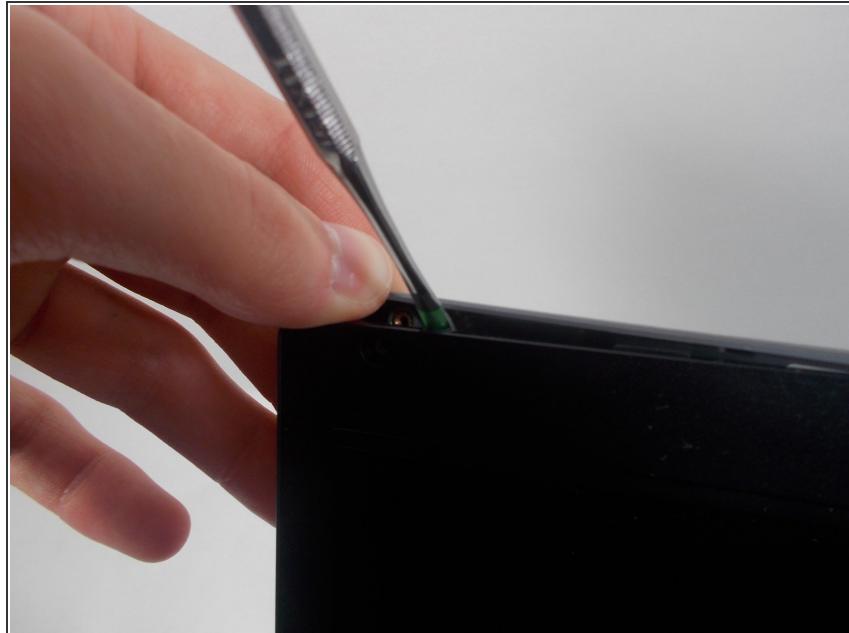

● Insert your spudger along the top of the screen, separating the plastic cover and the screen

Step 5

- ● Continue running your Flathead along the top of the screen until the top is completely separated.

Step 6
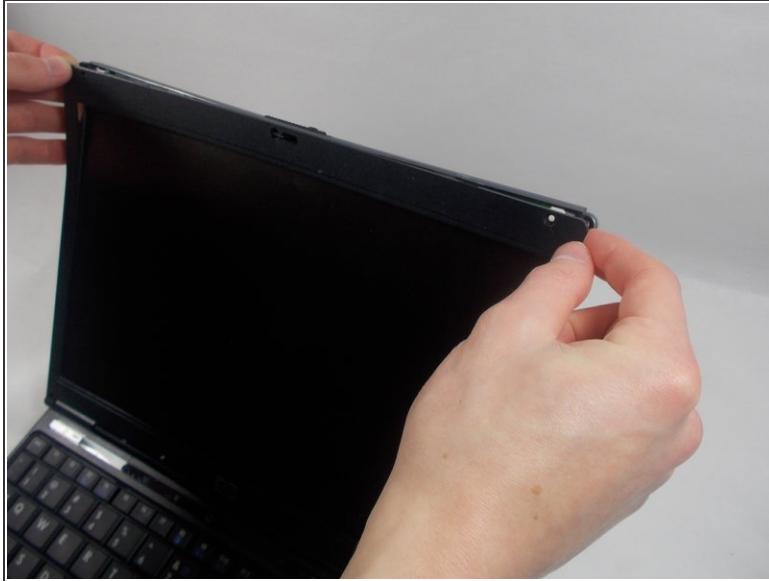

- ● Pull the plastic covering of the screen towards the keyboard, exposing the inner workings of the screen.

Step 9
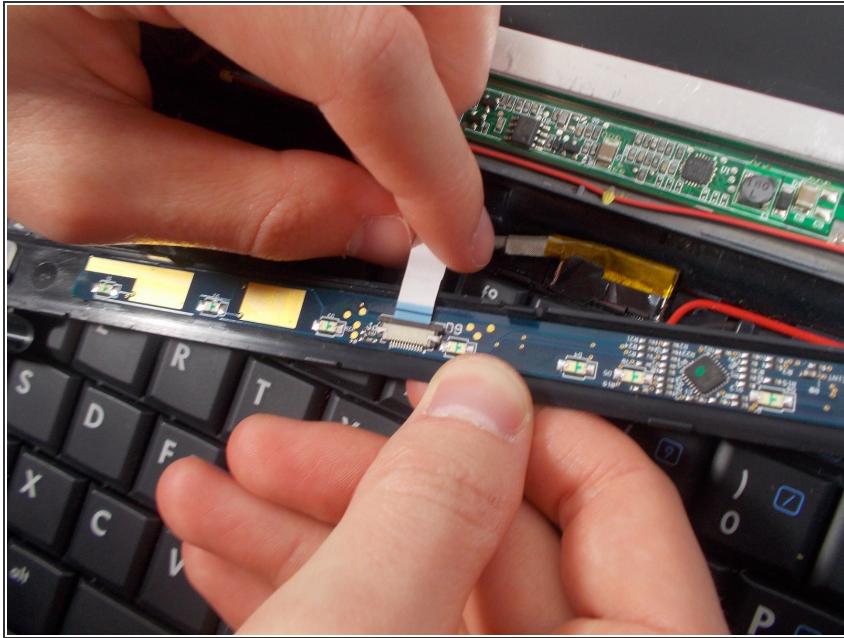

- Flip the Power/Audio bar over exposing the ribbon wire and its connection to the Power/Audio bar.

Step 10
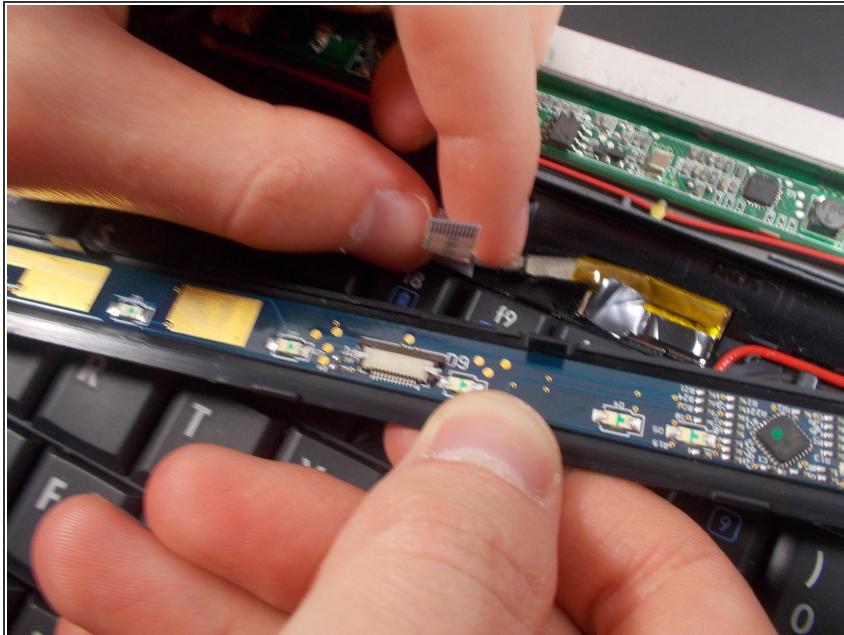

- Separate the ribbon wire by gently pulling the wire from its socket.

- The wire will be separated and the bar is free.

⚠ Be gentle as you pull.

To reassemble your device, follow these instructions in reverse order.
