Step 1 — Bottom Cover

- Close the laptop and flip it so that the screen is on the surface of the table and the back plate is facing you.

- Remove the 3.3 mm screw near the top of the hinge using a T5 Torx screwdriver.

- Remove the remaining four 7.3 mm screws using the same screwdriver.

Step 2

- Separate the bottom cover from the laptop, starting from the upper corner and working your way around the edge.

- ⓘ *The plastic fastening may make cracking sounds when separating, but this is normal.*

To reassemble your device, follow these instructions in reverse order.
