Step 1 — Battery

⚠️ Ensure the laptop is completely powered off and power adapter is unplugged before removing the battery.

- Turn over laptop so that the bottom is showing.

- Unlock the latch.

Step 2

- Remove the back cover and you will then be able to see the battery.

Step 3

- Unlatch the two latches securing the battery in the case.

Step 4

- Use a plastic opening tool to lift and remove the battery.

To reassemble your device, follow these instructions in reverse order.
