# HP Envy 15-u001dx Disassembly

This guide shows you the steps to open your laptop properly so you can get to the components you need to.

Written By: Dakota Presley

INTRODUCTION

This guide is a necessary first step to many of the other guides for this laptop.

🔧 TOOLS:

- Spudger (1)
- Phillips #0 Screwdriver (1)

This document was generated on 2019-10-30 03:22:50 PM (MST).

Step 1 — HP Envy 15-u001dx Disassembly

- Remove the two no-slip covers on the rear, bottom side using spudger shown in top center of picture.

- (i) The two in the front do not have to be removed as there are no screws underneath them.

Step 2

- Remove the two cover tabs towards center of the bottom as there are screws underneath them.

Step 3

- Remove all fourteen 4.5 mm screws from the bottom using a Phillips #0 screwdriver. Each location is marked by a red circle in the picture.
Step 4

- Separate the top cover by using a spudger to go around the sides freeing the inside latches.

- ⚠️ Once the bottom is free, carefully open to the inside as there are two ribbons that connect your keyboard and touch pad to the top cover.

Step 5

- Use the spudger to detach the two ribbons from their connectors.

⚠ The regular black nylon spudger should be used whenever possible, especially around sensitive internal components.

To reassemble your device, follow these instructions in reverse order.
