Step 3

- Slide the front panel to the right, then lift the front panel upwards.

Step 4

- Remove the large flat ribbon cable by pinching the top and bottom of the cable between thumb and index finger and pulling away from the mother board.

- Remove the small flat ribbon cable by pinching the top and bottom of the cable between thumb and index finger and pulling away from the mother board.

Step 5
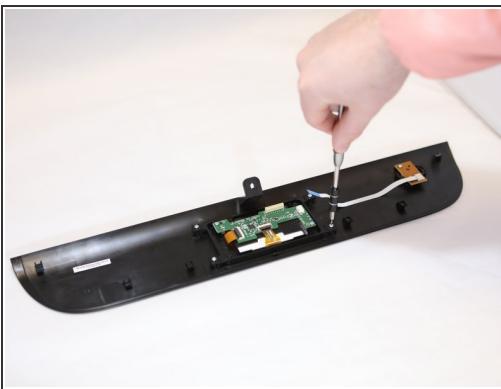

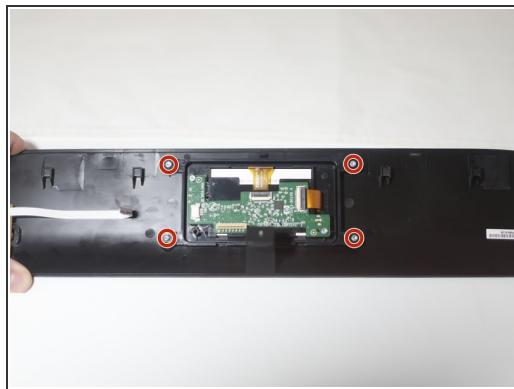

- Remove the four T6, 7 mm mounting screws.

- Remove the LCD screen out of the plastic housing.

To reassemble your device, follow these instructions in reverse order.
