Step 1 — Battery

- Turn your computer over so that the bottom is facing up.

- Slide the left black switch towards center.

- You should see an unlock image exposed to the left of switch if done correctly.

Step 2

- Slide the right black switch towards center to release the battery.

Step 3

- Pivot the loose edge of the battery closes to you by pushing it toward the back of the computer.

- The battery should slide out freely.

⚠ If battery is not pivoted before sliding out, you risk breaking interlocking tabs on the battery or computer.

To reassemble your device, follow these instructions in reverse order.
