HP Envy x360 15-bp143cl Screen Replacement

How to replace the screen on an HP Envy x360 15-bp143cl laptop.

Written By: Spencer Berkins

INTRODUCTION

Use this guide to replace the screen of an HP Envy x360 15-bp143cl. The laptop is also identified by its model number, 3TS71UAR#ABA.

Many factors can cause a laptop's screen to malfunction or break. Review the HP Envy x360 15-bp143cl Screen Troubleshooting Page to check if any common factors are affecting the performance of your device.

Turn the laptop off and disconnect it from any power supply before starting the replacement process.

🔧 TOOLS:

- Suction Handle (1)
- iFixit Opening Tools (1)

Step 1 — Screen
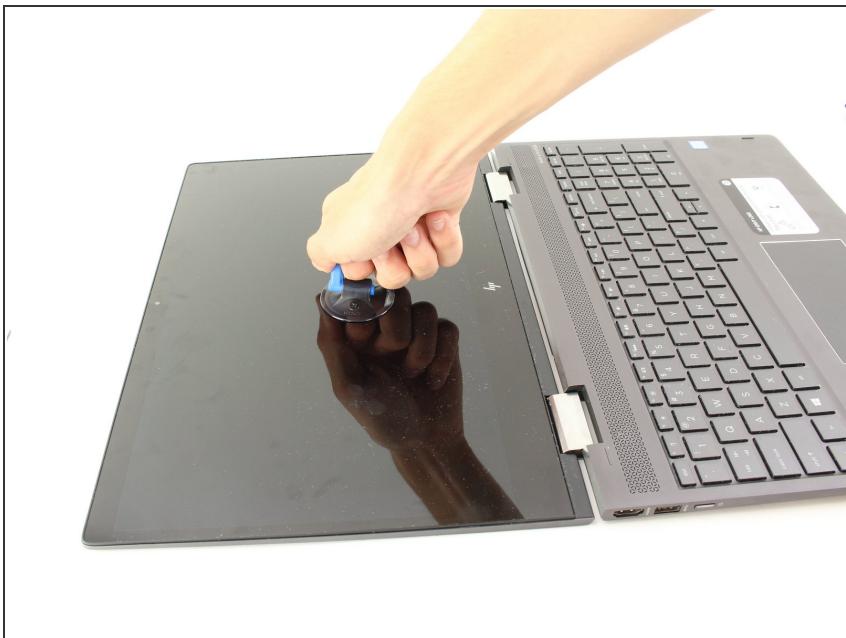

- Use a suction handle to pull the screen display out of the screen casing.

- (i) If the screen is difficult to remove, use an opening tool to pry the sides of screen from the screen casing.

Step 2
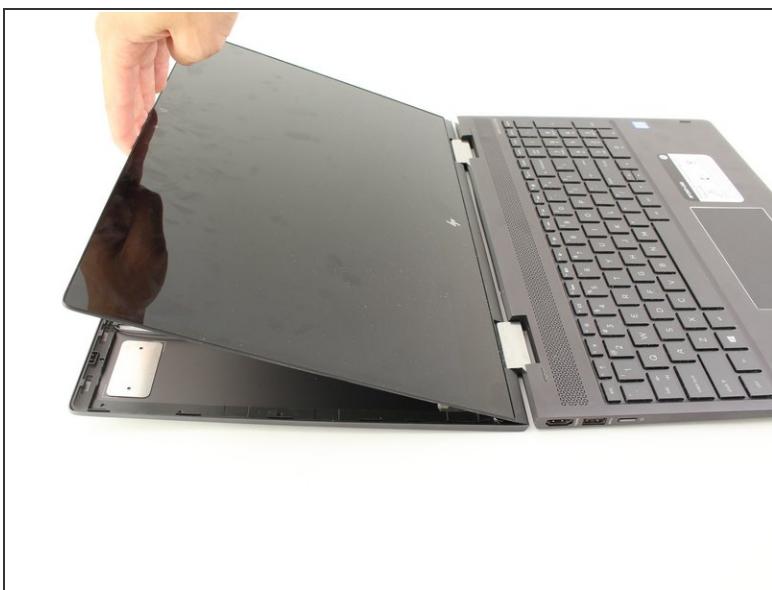

- Lift the screen display from the screen casing, hinging it from the top edge to expose the back of the panel.

⚠ Do not separate the display from the casing completely, as there are still cable connections holding it in place.

Step 3

- Detach the connecting cable between the laptop and the display screen.

- Remove the display screen.

To reassemble your device, follow these instructions in reverse order.
