Step 1 — Battery

- On the back panel of the device, remove the four (4) M2.5xL6 screws at the top of the photo using a Phillips #0 screwdriver.

- Unscrew the three (3) screws at the bottom of the photo using a T5 Torx screwdriver.

Step 2

- To remove the back cover, use the black spudger to lift up on the edges of the cover.
- Use a suction cup to assist in lifting the back cover

Step 5

- Lift and pull the front of the battery up and out (away from the connector) to remove.
Step 6 — Touch pad

- Remove the three (3) 2.0x3.4 mm screws using a Phillips #0 screwdriver.

Step 7

- Use the blue opening tool to detach the purple tab on white strip from the black electrical insert.

- Pull the white strip up and out of the black insert.

Step 8

- Use the blue opening tool to lift the screw tab in order to grasp the touch pad instrument.

Step 9

- In one motion, gently lift and slide the touch pad instrument out of its original place.

To reassemble your device, follow these instructions in reverse order.
