# HP LaserJet 1160 or 1320 Fan Replacement

Written By: jrw01

TOOLS:

- Metal Spudger Set (1)
- Phillips #0 Screwdriver (1)

PARTS:

- HP LaserJet 1160 or 1320 Fan (1)

Step 1 — Left Side Cover

- Pull on the two tabs on the back of the printer to release the left side cover.

- Remove the cover by rotating it towards the front of the printer.
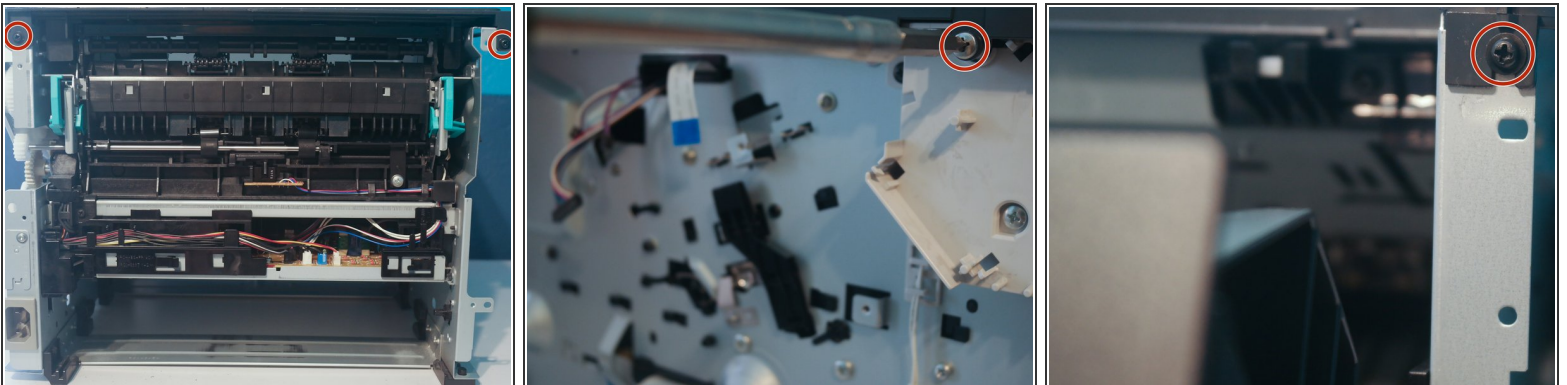

Step 2 — Right Side Cover

- With the printer turned so that the right side is facing upwards, use a metal spudger to disengage 3 tabs holding the right side cover in place.

- Lift the cover off of the printer.

Step 3 — Back Cover

- Remove 4 screws on the back of the printer.

- Remove the back cover.

Step 4 — Top Cover

- Remove 2 screws on the back of the printer, one on the left, and one on the front.

- (i) The second image shows the formatter removed, but it is not necessary to remove the formatter to replace the top cover.
