HP Mini 210-1199DX RAM Replacement

The need to replace system ram for the HP 210-1199DX.

Written By: Phillip Winston

INTRODUCTION

By using this guide a user will be able to effectively remove the RAM portion of the HP Mini 210-199DX for either replacement or installation of a new RAM card.

## 🔧 TOOLS:

- Spudger (1)

Step 1 — Battery

- Unplug the netbook.

- Secure the netbook in a upright position.

- Slide the plastic battery latch that secures it into the netbook.

- Keep thumb secure on the right tab as you begin to remove the battery.

Step 2

- Remove the battery from the device.

Step 3 — Bottom Cover
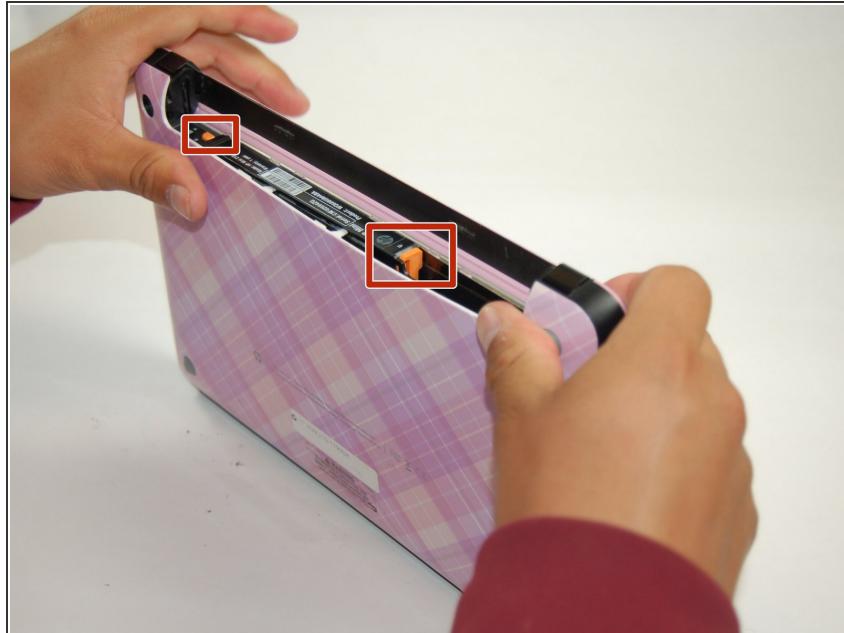

- Press down on the two orange buttons to release.

- If the case does not pop off, begin to use Spudger to pry the case off the back.

Step 4

- Place the spudger on corners and openings in order to begin removal of the back.

- Continue this on all corner until the case comes fully off of the back.

Step 5
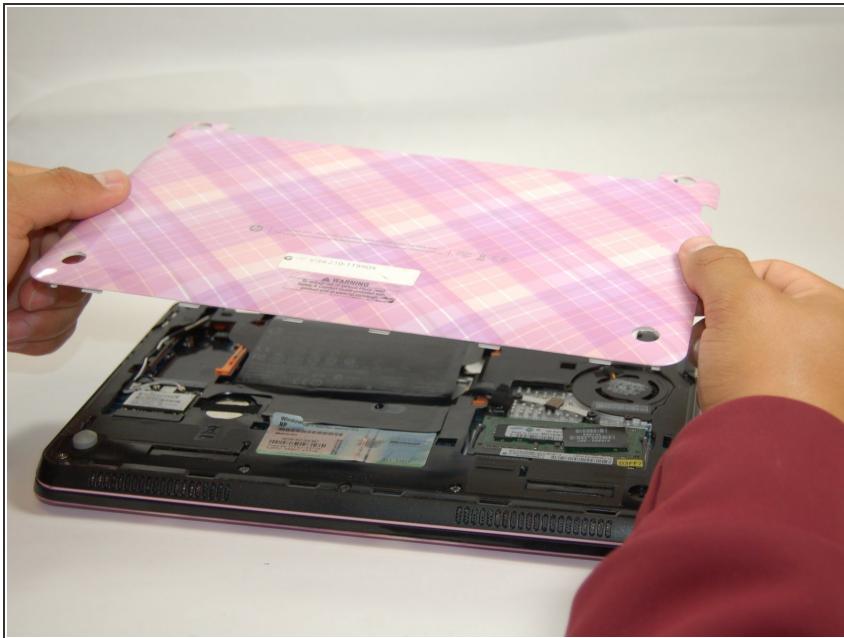

- Pull the case off of the device

Step 6 — RAM

- Locate RAM systems.

Step 7
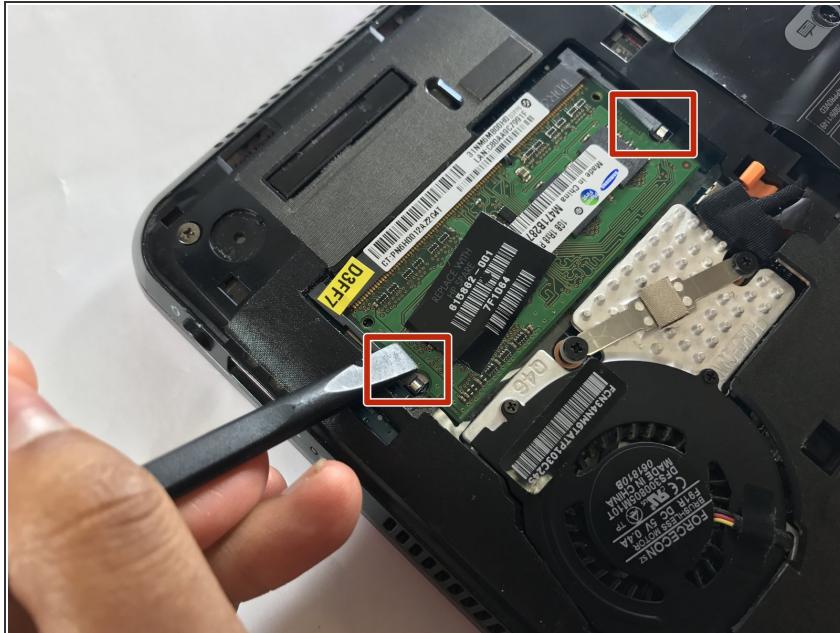

- Use spudger to carefully pull the holding devices back.

- (i) RAM should pop out once this is completed.

Step 8
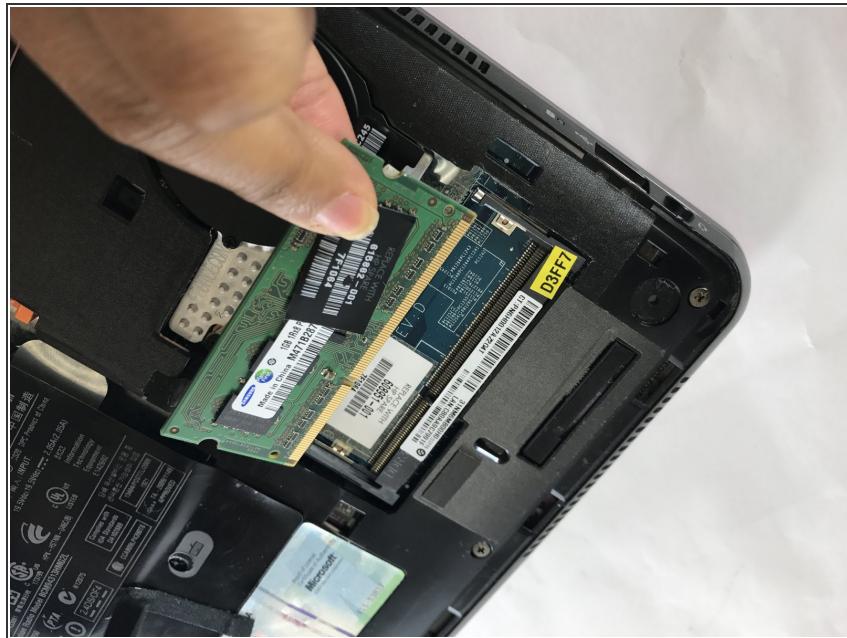

- Carefully pull the RAM card out.

To reassemble your device, follow these instructions in reverse order.
