INTRODUCTION

In this guide, the main objective is to remove the battery from the computer.

Step 1 — Battery

⚠ Power down the laptop and detach the charging cord (failure to do so can result in electrical shock).

Step 2

- Flip the laptop upside down so that the bottom is facing you.

- Push the slide on the right toward the center of the laptop, releasing the battery latch.

- Lift the battery up and away from the laptop.

To reassemble your device, follow these instructions in reverse order.
