

HP Pavilion 15-au123cl Fan Replacement

This guide will show the steps to replace the fan on the HP Pavilion 15-au123cl

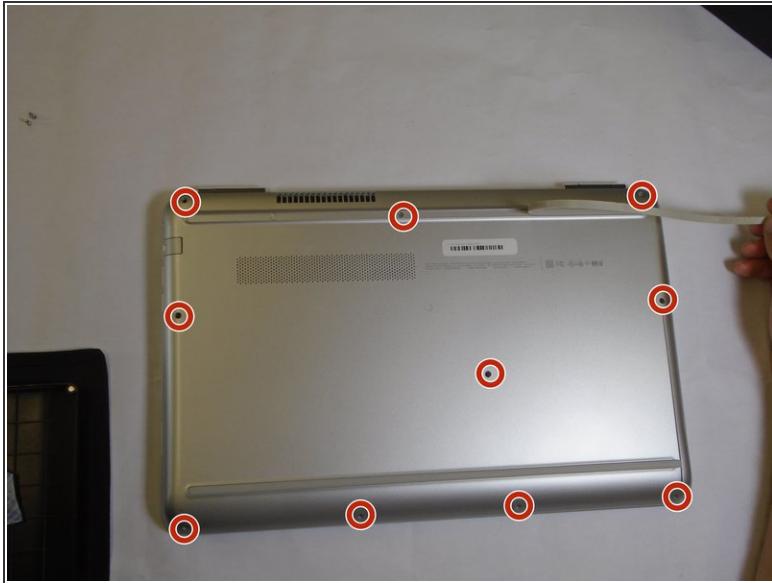

Written By: Charles W Fisher

 **TOOLS:**

- [iFixit Opening Tools \(1\)](#)
- [Phillips #0 Screwdriver \(1\)](#)
- [Spudger \(1\)](#)

Step 1 — Fan

- Remove the ten screws from the back case with a Phillips #0 screwdriver.
- Using a plastic opening tool, pry the CD drive from the computer.
- Remove the back panel from the computer.

Step 2

- Wearing an anti-static bracelet, disconnect the battery cable from the top of the battery with a spudger or plastic opening tool.
- Remove the three screws from the fan assembly using a Phillips #0 screwdriver.
- Gently disconnect the fan cable cable.
- Remove the fan.

To reassemble your device, follow these instructions in reverse order.
