

HP Pavilion 17-e117dx Service Panel Replacement

This is guide for removing/replacing the service panel on the HP Pavilion 17-e117dx.

Written By: Marcel Amazan

INTRODUCTION

The service panel needs to be removed to access internal components of the HP Pavilion 17-e117dx, such as the hard drive and memory module.

TOOLS:

- [Phillips #00 Screwdriver](#) (1)
-

Step 1 — Battery

- Turn the laptop upside down, so that the bottom is facing up.

Step 2

- Slide the battery release latch to the left. The battery will pop up slightly.
- Lift the battery upwards and out of the laptop.

Step 3 — Service Panel

- Using a Phillips #00 screwdriver, remove the single Phillips 3.0 x 10.5 mm screw that fastens the service panel to the laptop.

Step 4

- Slide the service panel towards you to loosen it from the laptop.

Step 5

- Remove the service panel.

To reassemble your device, follow these instructions in reverse order.
