Step 1 — Battery

⚠ Turn off and unplug the laptop before replacing the battery.
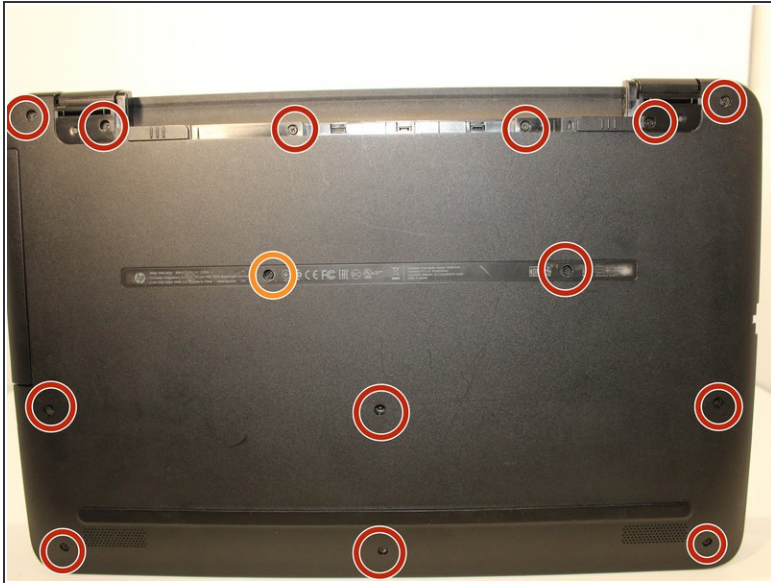

● The netbook needs to be top-side down with the lid closed.

● Slide the plastic battery release latches towards the lock symbols.

Step 2

● Slide the battery out from the laptop.

Step 3 — Back Panel

- ● Using a Phillips #0 screwdriver, remove thirteen 7.0 mm screws from the back case.

- ● Using a Phillips #0 screwdriver, remove the CD/DVD drive screw.

- ● Use an ejection pin to eject and remove the CD/DVD drive.

Step 4

- Use an iFixit opening tool to separate the back cover from the laptop.
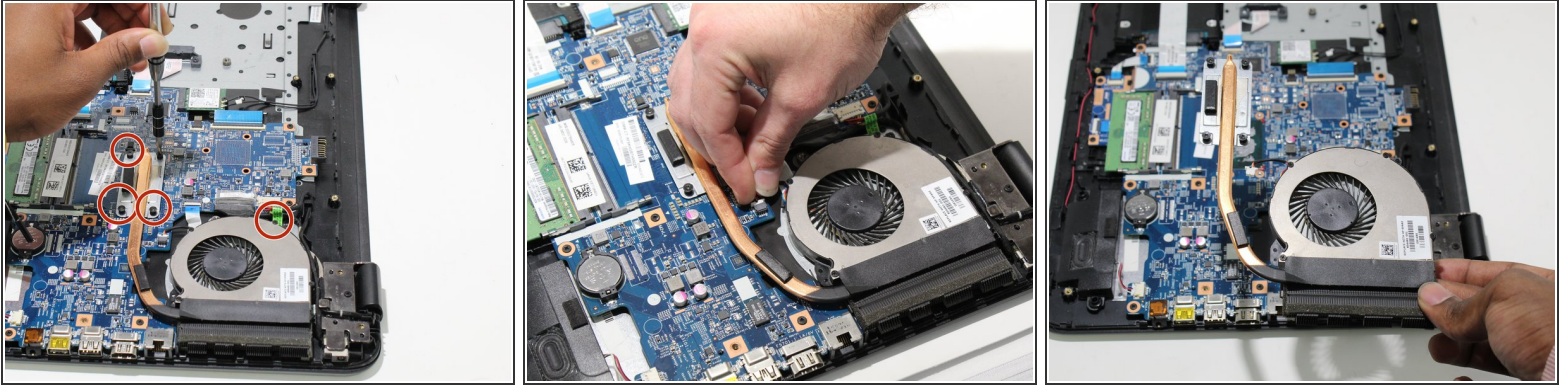

⚠️ Gently pry open the cover, trying not to break the plastic.

Step 5 — Fan

- Remove the five screws attaching the fan to the motherboard using a Phillips #0.

- Disconnect the wire connecting the fan to the motherboard.

Step 6

- Using a Phillips # 0 screwdriver, remove the five 3.0 mm screws.

- Disconnect the wire.

- Then remove the fan.

To reassemble your device, follow these instructions in reverse order.
