

HP Pavilion DM4 Hard Drive Replacement

Replace the Hard Drive in your Pavilion Dm4 laptop.

Written By: Wyatt Marsalek

INTRODUCTION

Use this guide to replace the Hard Drive in the Pavilion Dm4.

TOOLS:

- [64 Bit Driver Kit](#) (1)

PARTS:

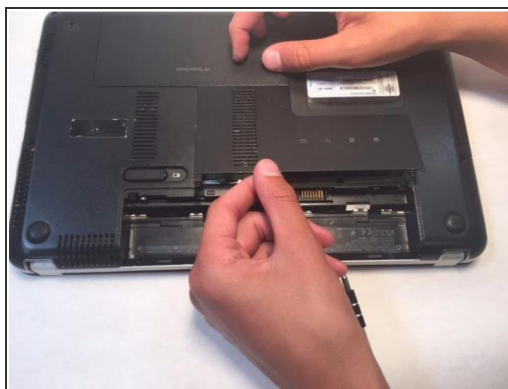

- [1 TB SSD / Upgrade Bundle](#) (1)
- [250 GB SSD / Upgrade Bundle](#) (1)
- [500 GB SSD / Upgrade Bundle](#) (1)
- [2 TB SSD / Upgrade Bundle](#) (1)

Step 1 — Hard drive

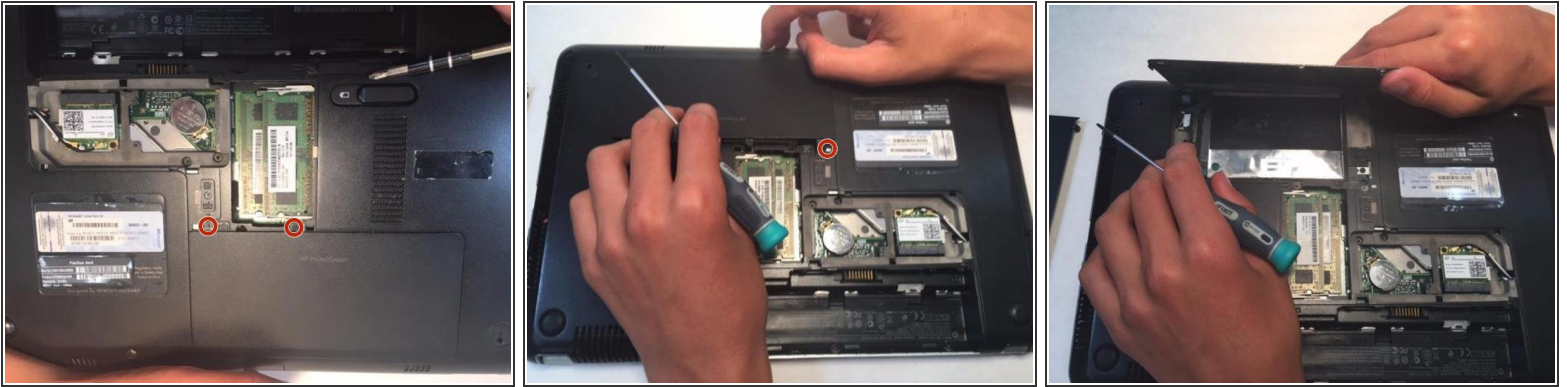

- Unlock and remove the battery pack.

Step 2

- Unscrew the hidden screws covered by the battery pack and remove the panel to find more hidden screws.

Step 3

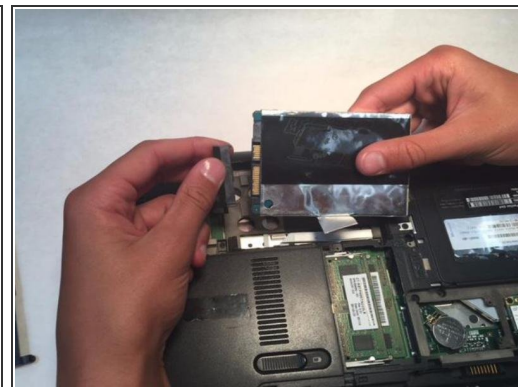

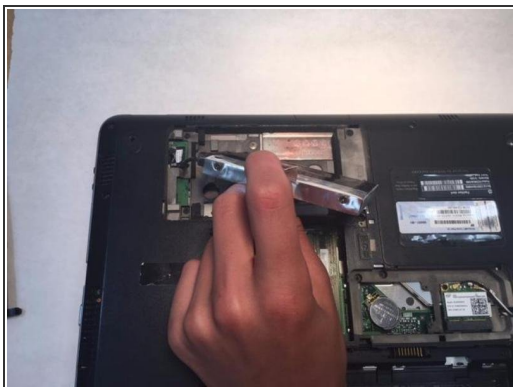

- Unscrew the hidden screws in order to remove the hard drive cover.

Step 4

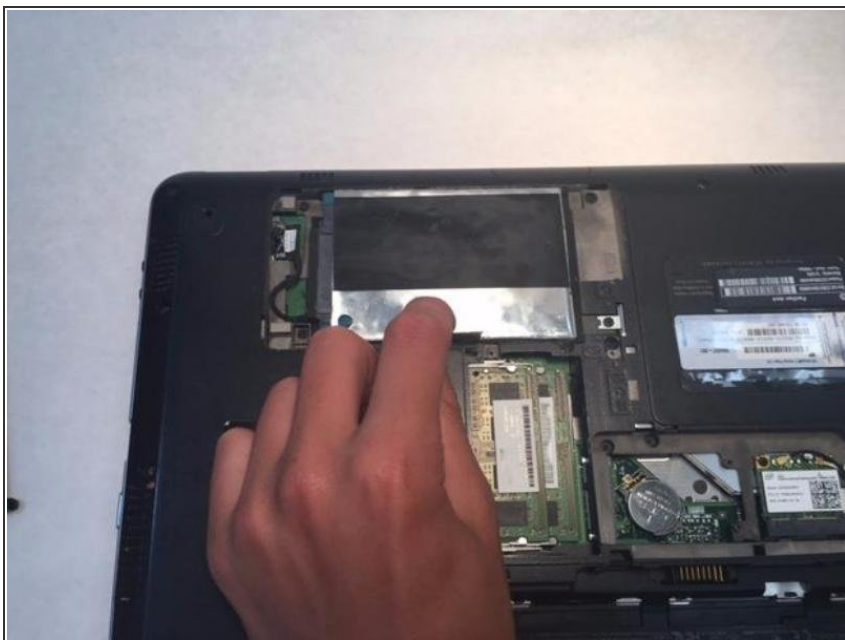

- Pull out the tab to remove the hard drive.

Step 5

- Take the hard drive out and pull the connector from it.
- In order to disconnect the hard drive, grab the hard drive and cord then gently pull the hard drive away from the cord.

Step 6

- Replace the hard drive.
- ⓘ Do not take apart the hard drive if you want it to run anything at all!

To reassemble your device, follow these instructions in reverse order.
