Step 1 — Battery

- Press down and to the right on the battery lock slide.

- Once slid over to the right the battery will pop up and out.
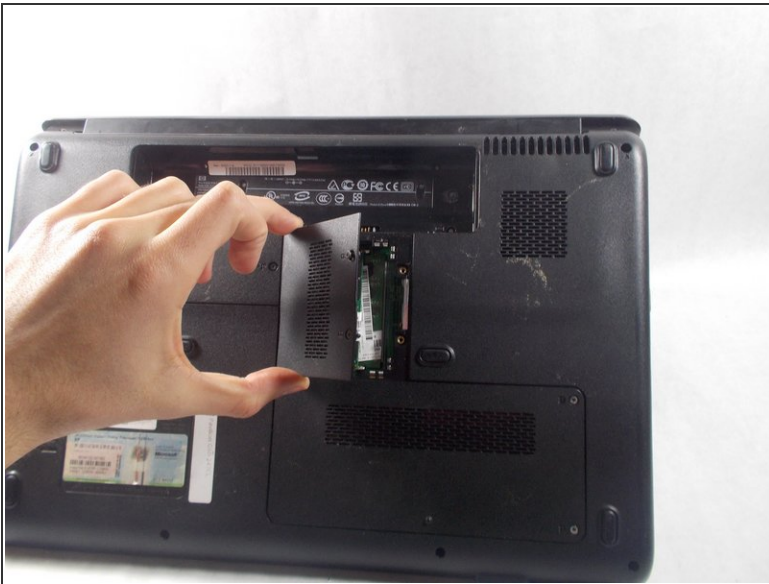

Step 2 — RAM

- Locate RAM access door on the bottom side of the laptop.

Step 3

- Locate the two screws holding down the RAM access door.

- Unscrew the two screws with a size #1 Phillips screwdriver.

Step 4

- Lift up on the RAM cover and remove it to reveal RAM sticks.
