## INTRODUCTION

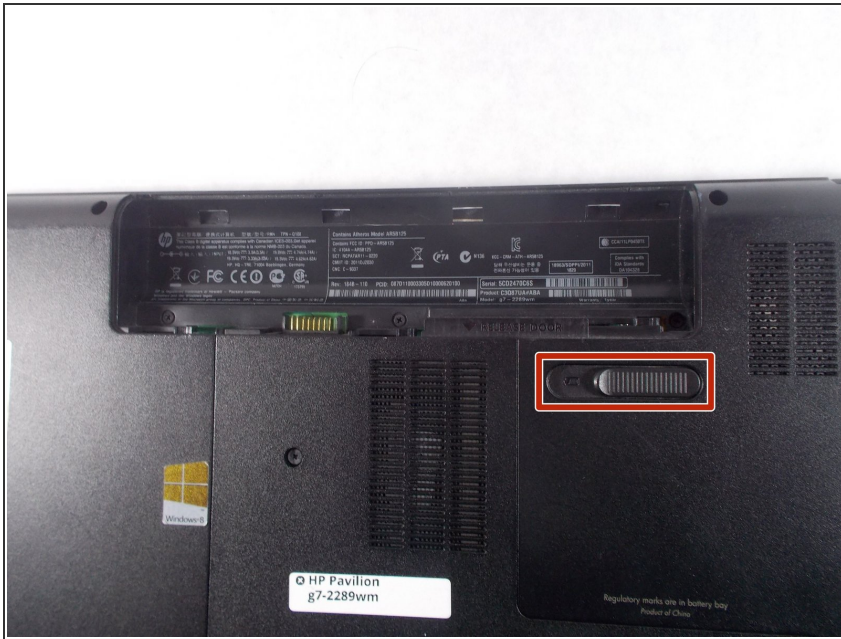

This guide provides instruction on how to replace the RAM module.

### TOOLS:

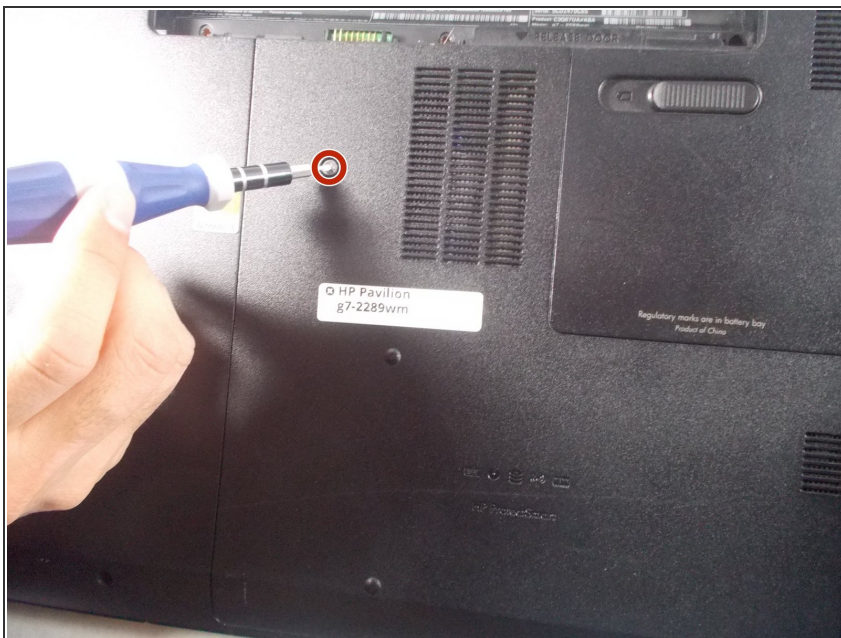

- [Phillips #0 Screwdriver](#) (1)
-

## Step 1 — Battery

- Slide the battery release latch to the left, towards the center of the laptop.
- Lift the battery up, and pull towards the center of the laptop to remove it.

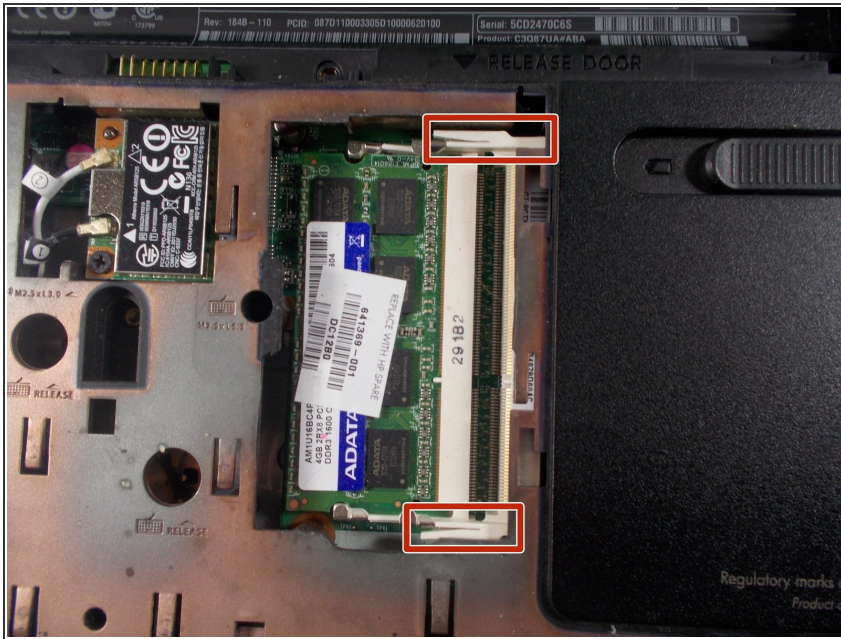

## Step 2 — RAM

- Loosen the screw that secures the service cover.
- Pull the service cover towards you to remove it.

### Step 3

- Unlock the tabs on each side of the ram module. (this lifts the ram module up)

### Step 4

- Remove the ram module by pulling it gently away from the slot.

To reassemble your device, follow these instructions in reverse order.
