Step 1 — Hard Drive

- Flip the Laptop to the back side. Making the battery facing up.
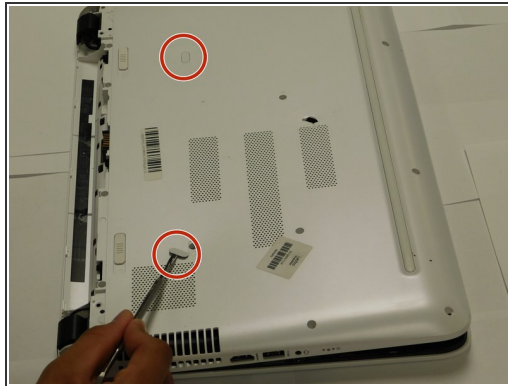

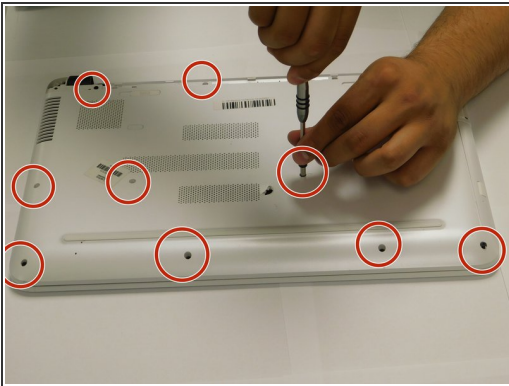

Step 2

- Slide both tabs button to the right unlocking the battery and releasing the battery. Then gently push out remove the battery.
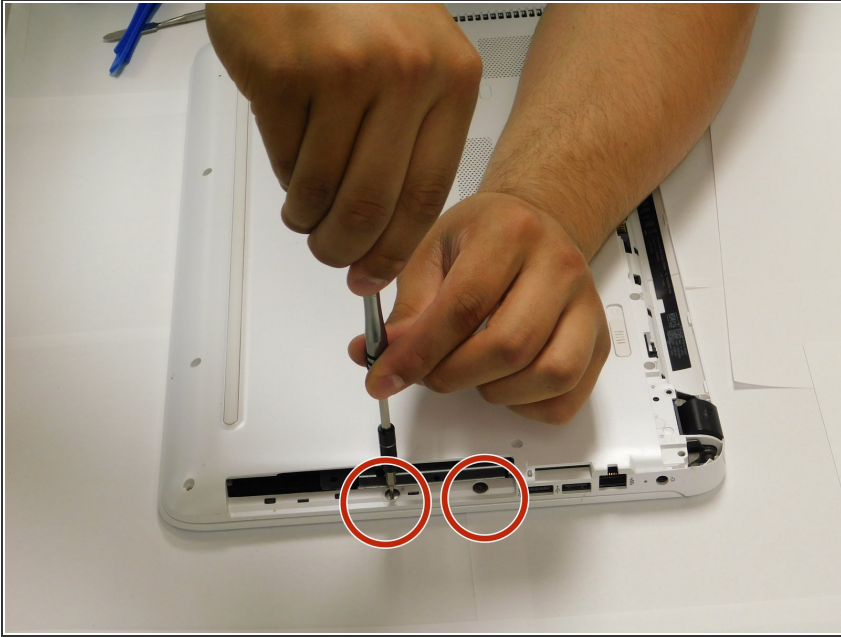

Step 3

- With the battery removed, you can now proceed removing both back plastic covers in the back. Using the Phillips head J1 and the Philips screwdriver 1 . Unscrewed two 7.5mm bolts and using the pry tool to remove both back covers.
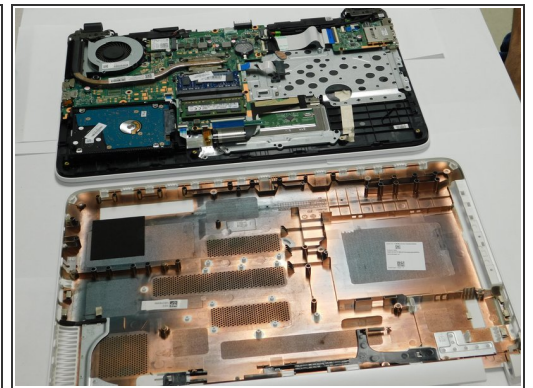

Step 4

- Remove all 16 - 7.5mm screws with the Phillips J1 head and the Phillips screwdriver 1.

- Remember to remove the tabs shown on the second picture.

- Then pry and slide off the CD/DVD drive out of the laptop case.
