INTRODUCTION

A guide to replace the hard drive on the HP Pavilion dv7t-7000.

🔧 TOOLS:

- Phillips #00 Screwdriver (1)

Step 1 — Battery

- Turn the computer off and disconnect if from all power sources.

Step 2

- Slide the battery release switch to the left.

Step 3

- Hold the release switch all of the way to the left and your other hand to pull the battery out.
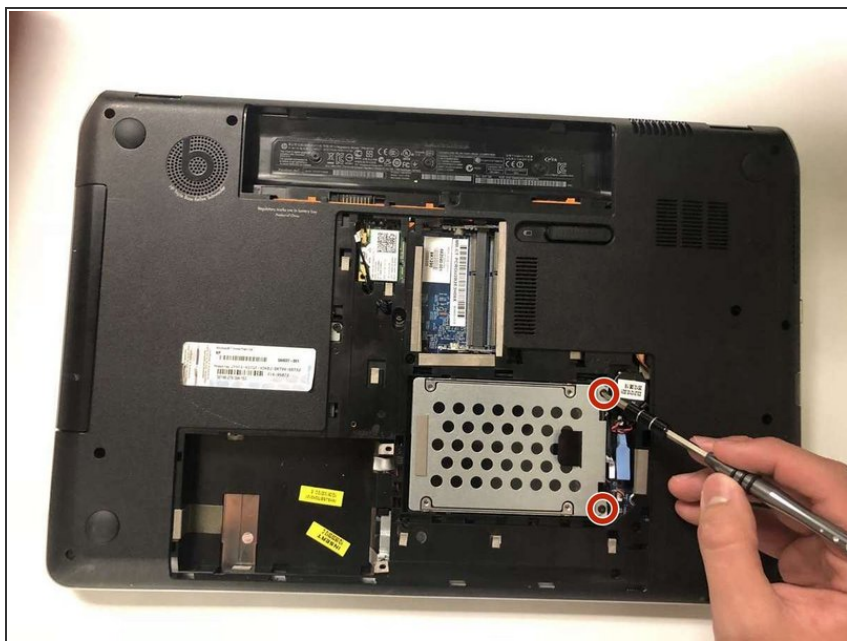

Step 4 — Back Panel

- Unscrew the single Phillips #00 screw.
- (i) Screw will not come out, it is connected to the panel

Step 5

- Remove service hatch by sliding away from the computer and lifting up.
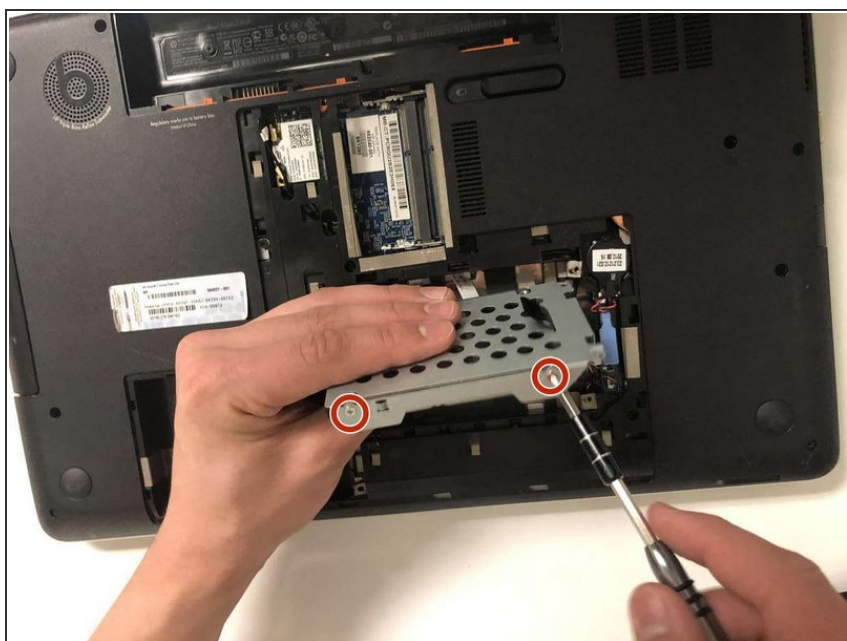

Step 6 — Hard Drive

- Remove the two Phillips #00 screws holding in the hard drive.
