# HP Pavilion g4-1117dx Speaker Replacement

How to replace the HP Pavilion g4-1117dx speaker.

Written By: Robert Hamilton

INTRODUCTION

The speakers are relatively easy to remove. There are no screws. All you need to do is disconnect a wire and pull.

TOOLS:	**PARTS:**
• JIS #0 Screwdriver (1)	• HP Pavilion g-4 Battery (1)

Step 1 — Battery

- Slide pill shaped tab to the other side of the channel.

Step 2

- Remove battery while keeping the tab to the side.

Step 3 — L-Shaped Back Panel

- Unscrew the two screws JIS #0 located on opposites sides of the panel.

- (i) Screws are attached to the panel and will not fully come out.

Step 4

- Carefully pry off the L-shaped panel.
Step 5 — Hard Drive

- Pull out and unplug the tab on the right hand side.

Step 6 — Larger Back Panel

- Unscrew all nine 6.0mm JIS #0 screws located on the border of the back panel.

Step 7

- Remove 3 screws located where the battery previously was.

Step 8

- Remove 6 screws located under the spot where the smaller L-shaped panel was located.

Step 9

- Slowly pry off the keyboard from the back panel.

- ⓘ Between the back panel and the keyboard there are two ribbon wires.

- ⚠ Remove slowly to not break the back panel. If it does not come off easily, check to see if all screws are removed.
Step 10

- Unplug wires connecting back panel to keyboard.
