---

## INTRODUCTION

There are a few reasons you may want to replace your battery. The battery no longer can hold a charge anymore, the battery is completely dead, or you would like the option to have a backup battery in case your current one runs out of charge. Whatever the reason, replacing the battery is simple and it takes only a minute and the only tools needed are your own hands.

### PARTS:

- [HP MU09XL Replacement Laptop Battery](#) (1)
-

## Step 1 — Battery

- ⚠ Shut off your device and disconnect the power cord. Disconnect any external devices connected to the device.
- Place your finger on the battery lock slider, press toward the center of the laptop to unlock the battery.
- ⓘ The lock will make a click sound letting you know that the battery is unlocked.

## Step 2

- Use your thumb to pry up the edge of the battery and lift it out of the device.
- ★ When replacing the battery, align the notch on the battery with the battery lock on the device. Gently press down on the battery until you hear the lock click, which signals that the battery is secure.

To reassemble your device, follow these instructions in reverse order.
