

# HP Pavilion g7-2023cl Service Door Replacement

This guide will show you how to replace the HP Pavilion g7-2023cl service door.

Written By: Thomas Maloney

## INTRODUCTION

There are a few reasons to remove/replace the service door. The service door is cracked, the screw that is attached to the service door is stripped, or you simply need to access the internal parts of the device. Whatever the reason, this guide will show you how to remove and replace the service door.

### TOOLS:

- Phillips #0 Screwdriver (1)

## Step 1 — Battery

**⚠** Shut off your device and disconnect the power cord. Disconnect any external devices connected to the device.

- Place your finger on the battery lock slider, press toward the center of the laptop to unlock the battery.
- **i** The lock will make a click sound letting you know that the battery is unlocked.

## Step 2

- Use your thumb to pry up the edge of the battery and lift it out of the device.
- **★** When replacing the battery, align the notch on the battery with the battery lock on the device. Gently press down on the battery until you hear the lock click, which signals that the battery is secure.

## Step 3 — Service Door

- Using a Phillips #0 screwdriver, loosen the service door screw.
- *(i)* This is a captive screw that will remain attached to the service door.

## Step 4

- Lift the service door up and away from the device.

To reassemble your device, follow these instructions in reverse order.
