

# HP Pavilion x360 11-p110nr Key Replacement

This guide will show how to remove a jammed key from the HP Pavilion x360 11-p110nr keyboard.

Written By: AljeannaJohnson

## INTRODUCTION

If your computer has a jammed key on the keyboard, within this guide you will find quick and easy directions on how to resolve the issue.

### TOOLS:

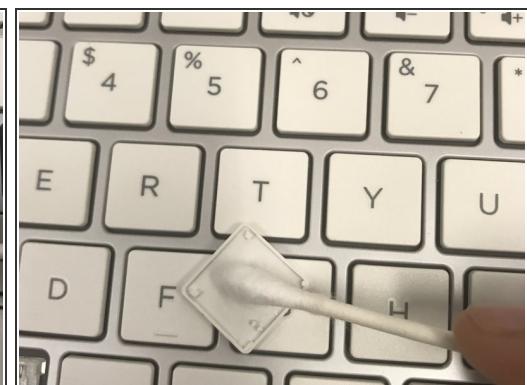

- Flathead 3/32" or 2.5 mm Screwdriver (1)

## Step 1 — Key

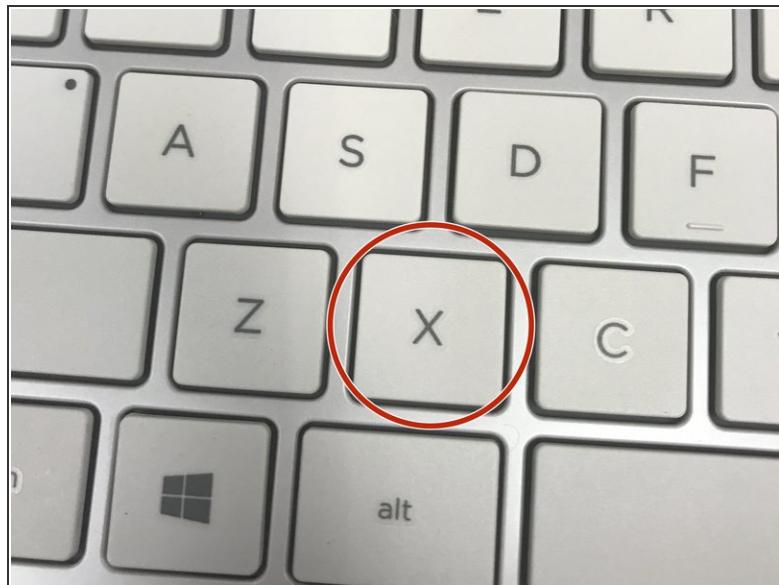

- Use a screwdriver or other flat instrument to get under the key, and pull up slightly on one of the edges.

## Step 2

- Clear out any obstructions or crumbs that are jamming the key or the hinges underneath.
- You may use a Q-tip, toothpick, or tweezers.

## Step 3

- Use the flat screw to put the key back into place.
- Gently press the key down. It should snap back into place
