Step 3

- Carefully pry up around the edges of the laptop. Take your time around the ports as they are ewasily damaged.

Step 4

- Slowley lift the top case/keyboard upwards and disconnect the three ribon cables.

Step 5

- Disconnect the battery from the main board.

- Unscrew the 8 screws holding the battery in place.

Step 6

- Lift the battery out and your done.

To reassemble your device, follow these instructions in reverse order.
