Step 1 — Top Cover/Keyboard

- Close the device.

- Remove AC adapter plug from electrical outlet.

- Remove AC adapter from device.

- Turn the device off.

- Unplug all external devices from device.

(i) If you are unsure whether the computer is off or in hibernation mode, start the computer and then shutdown the operating system.

Step 2

- Turn the device upside down with the back facing towards you.

Step 3

- ● Use a pick to remove the two (2) large computer feet along the back edge of the device.

- ● Use a pick to remove the two (2) small computer feet.

- ● Use a pick to remove the one (1) screw cover.

- ● Place rubber computer feet in safe place for reassembly.

Step 4

- ● Remove the thirteen (13) Phillips P0 PM2.5x6.0 mm screws.

- ● Place the thirteen (13) screws on magnetic mat for reassembly.
