HP TouchSmart 15-r015dx Keyboard Replacement

This guide will show you how to replace your keyboard for your HP TouchSmart 15-r015dx.

Written By: Jacob Kleinsorge

INTRODUCTION

The HP TouchSmart 15-r015dx has a Cruus NSK-CN6SC keyboard.

🔧 TOOLS:

- iFixit Opening Tools (1)
- Phillips #00 Screwdriver (1)

Step 1 — Keyboard

- Turn off your laptop.

⚠️ Ensure your laptop is off. Removing the keyboard while it is on may harm your laptop.
- Flip upside down in order to release the keyboard.

Step 2

- Remove the two Phillips screws securing the keyboard.

ⓘ One of the screws lies on/under the label.

Step 3

- Flip the laptop back over and pull the screen up.

- There are 16 (sixteen) latches holding the keyboard in place.

- Gently pry the keyboard up using your plastic opening tool.

⚠ Don't pull the keyboard up more than 2-3 inches as there is a film-material connecting the keyboard to the laptop.

Step 4

- There is a film-material connecting the laptop to the keyboard.

- There is a small black latch holding the film-material in place.

- Flip the black latch up to release the film-material.

- Once flipped up, simply pull the film-material out from the laptop to release the keyboard.
