

# HTC Desire 826 Headphone Jack Replacement

How to replace your headphone jack to your HTC Desire 826.

Written By: Payton Rawson

---

## INTRODUCTION

Use this guide if the headphone jack of your HTC Desire 826 has been damaged or needs replacement,

---

### TOOLS:

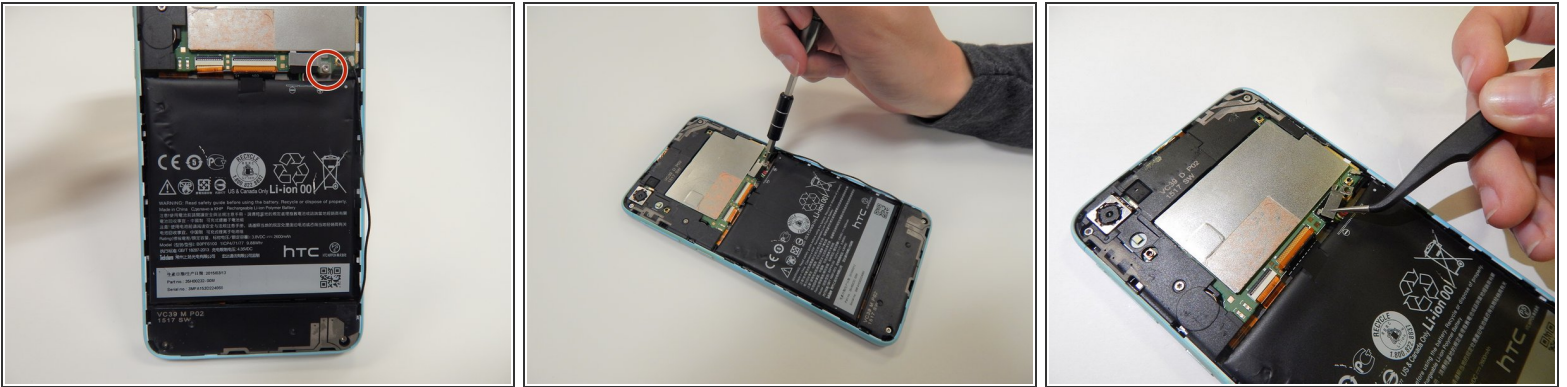

- [T5 Torx Screwdriver](#) (1)
  - [Tweezers](#) (1)
  - [Magnetic Project Mat](#) (1)
  - [Spudger](#) (1)
-

## Step 1 — Battery

- Find a seam in the back of the device
  - Insert the plastic spudger into the seam and pry off the back panel
- i** There will be glue, so keep prying until it comes off or you may need to heat up the edges of the device to loosen the adhesive with the [iOpener](#).

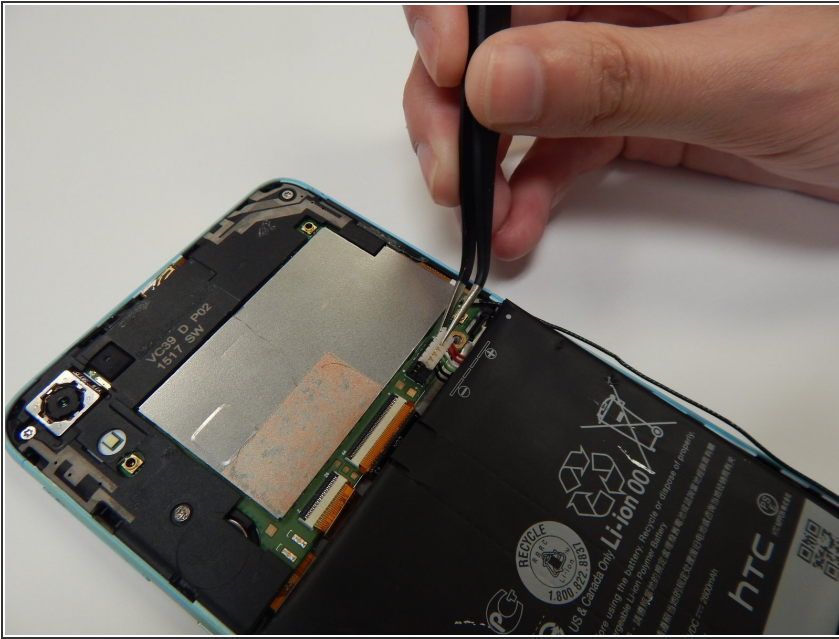

## Step 2

- Remove the 4.0 mm screw above the battery with the T5 screwdriver.
- Remove the metal covering with the tweezers

### Step 3

- Disconnect battery cable attached to the motherboard with the tweezers.

### Step 4

- Lift battery with plastic spudger and remove

## Step 5 — Headphone Jack

- Use the T5 screwdriver to remove the three 4.00 mm screws as shown.
- Once the screws are removed, pry up the top plastic panel using the black nylon spudger.

## Step 6

- Unscrew the two 4.00 mm screws attaching the bottom plastic panel using a T5 screwdriver.
- Using the spudger, remove the bottom plastic piece.

## Step 7

- Using the spudger, remove the bottom part of the motherboard.
- Using the angled tweezers, disconnect the headphone jack from the motherboard.
- Using the plastic spudger, pop out the circular silver piece and lift the top part of the motherboard.

## Step 8

- Using the angled tweezers, pop off the metal piece on top of the headphone jack.
- Using the angled tweezers, remove the headphone jack.

To reassemble your device, follow these instructions in reverse order.
