

HTC Ozone Rear Battery Cover Replacement

Removing the rear battery cover.

Written By: Marco Jokada

INTRODUCTION

Removing the battery cover gives you access to some internal components of your device (i.e. the battery, sim card, memory card).

Step 1 — Rear Battery Cover

- Flip the phone over to have the rear cover facing up.
- The camera lens should be towards the top of the phone.

Step 2

- Slide the cover up, towards the top of phone, to unlock the battery cover.
- Lift the cover off phone and remove it.

To reassemble your device, follow these instructions in reverse order.
