

# HTC Surround Back Case Replacement

How to replace an HTC Surround back case.

Written By: Kymber Kisner

## INTRODUCTION

If you are in the mood to showcase your brand new phone, but you have no clue how to replace your HTC Surround back case, then we have the perfect guide for you. This new surround back case is just the phone to bring with you to your next big party. This upgrade includes surround stereo speaker, and a new back case. The best part of this guide is that it is extremely straight-forward, and it takes no longer than twenty minutes to replace the surround back case!

### TOOLS:

- [Phillips #00 Screwdriver](#) (1)
- [iFixit Opening Tools](#) (1)

## Step 1 — Back Case

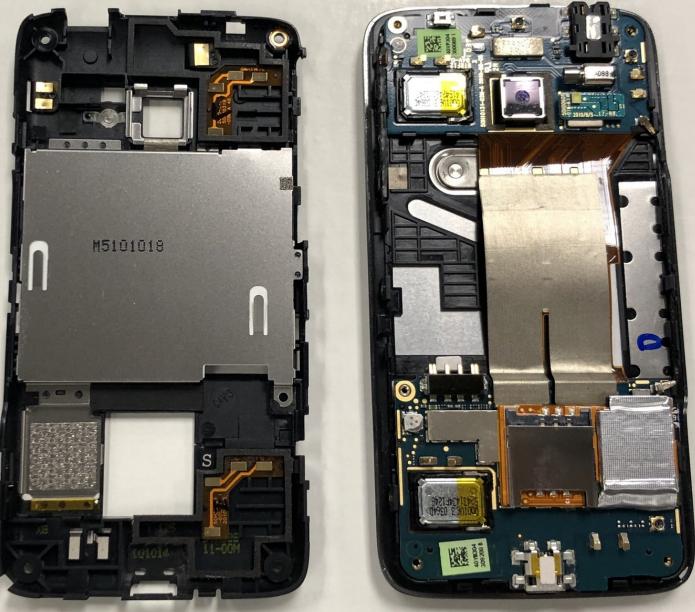

- Remove the back cover of the device to access the internal components of the HTC 7 Surround.
- To remove the back cover, use the circular hole to lift up the cover while holding the front of the device down.

## Step 2

- Using a Phillips #00 screwdriver, remove the screws as directed.

## Step 3

- Separate the screen and back cover with the opening tool.

To reassemble your device, follow these instructions in reverse order.
