

HTC Thunderbolt MicroSD Card Replacement

Written By: Vanessa

INTRODUCTION

Use this guide to remove the microSD prior to taking apart the rest of the device.

TOOLS:

- [iFixit Opening Tools](#) (1)
- [Tweezers](#) (1)

Step 1 — Rear Panel

- Insert the plastic opening tool into the top of the Thunderbolt near the power button.
- Gently pry up on the rear panel around the edges until it is loose.

Step 2

- Lift and remove the rear panel.

Step 3 — Battery

- Using the plastic opening tool, lift up the battery from the bottom near the kickstand.
- Remove the battery from the inner frame.

Step 4 — MicroSD Card

- Use your finger to push the MicroSD card in towards the top of the phone, allowing it to be released from the casing.

Step 5

- Use tweezers to grab onto the MicroSD card and carefully remove it from the casing.

To reassemble your device, follow these instructions in reverse order.
