Step 1 — Battery

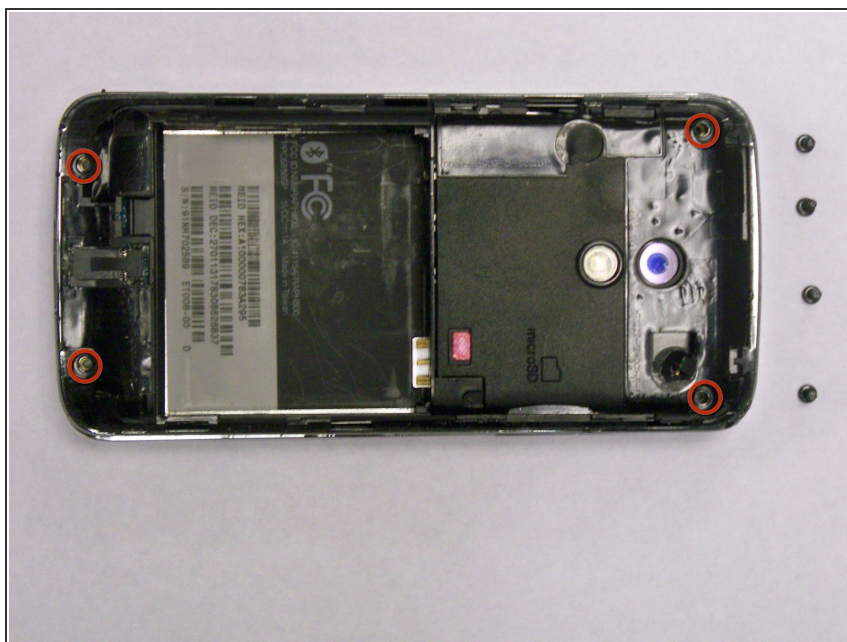

- First, gently press on the back plate and push down toward the camera.

Step 2

- Use your finger to lift up the edge of the battery.

| |

Step 3 — USB Logic Board

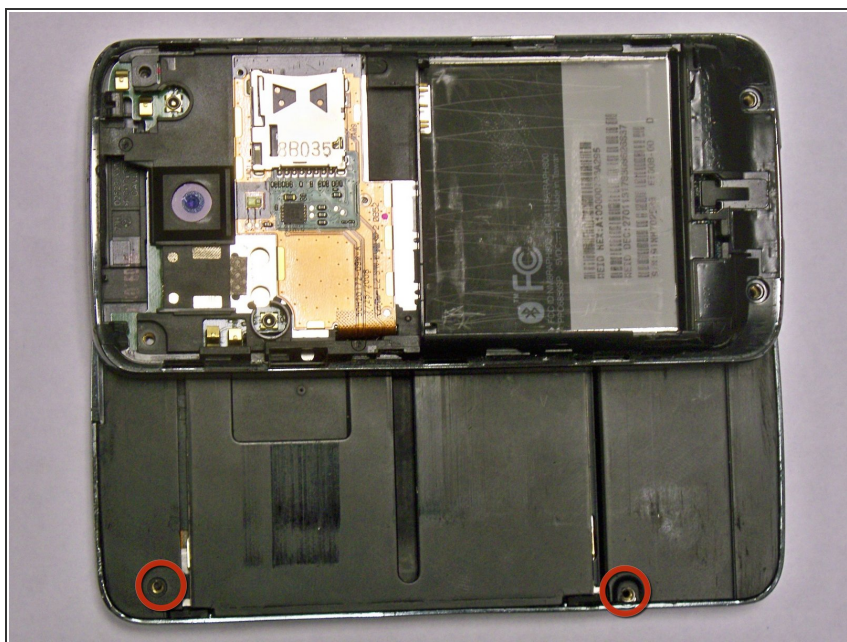

- Remove the 4 screws using the T6 screw driver.

Step 4

- Lift the plastic cover near the memory card slot.

|

Step 5

- Remove the two Phillips #00 screws from the backside of the screen.

Step 6

- Insert a spudger or a plastic opening tool into the seam on the side of the phone.

- Gently pry apart the two halves of the phone.
