Step 1 — Screen

- Remove the stickers covering the screws. These are located on both corners of the screen. (Two in total)

- Remove the two 7mm screws.

Step 2

- Use a plastic opening tool to pull the plastic screen bezel forward.

- Remove the 4 7mm screws in the corners holding the screen up.

- Use a plastic oping tool to pry the screen forward. Lay it on the keyboard.

Step 3

- Peel off the tape that connects the chord to the screen.

- Carefully unplug chord.

To reassemble your device, follow these instructions in reverse order.
