

# Hoover T-Series WindTunnel Pet UH70102 Belt Replacement

How to replace the belt on your vacuum.

Written By: Sophia Stockburger

---

## INTRODUCTION

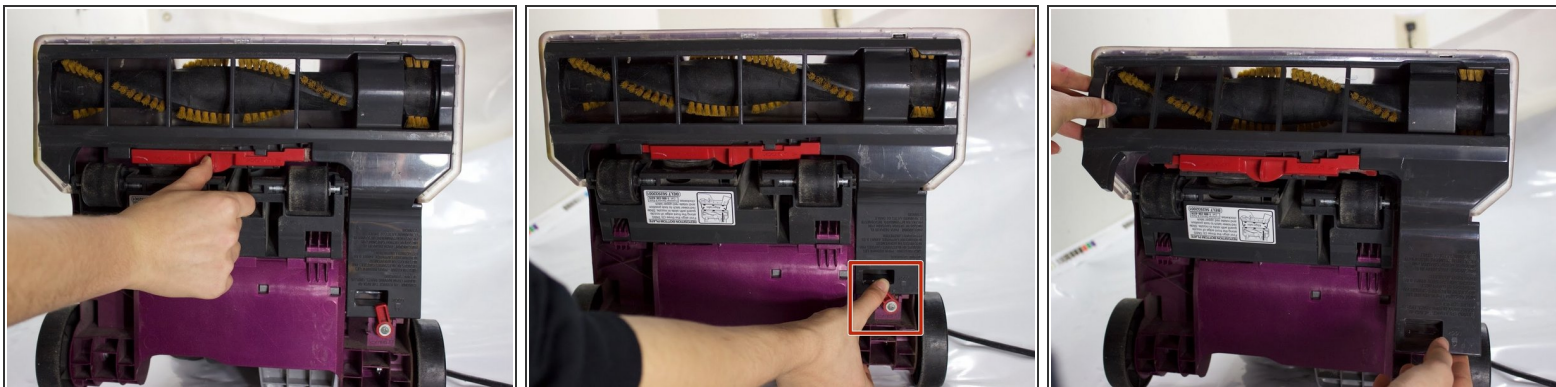

This guide is intended to help you replace the belt on your vacuum. Please see the troubleshooting guide to determine if this needs replacing. Begin by removing the brush roll.

---

### TOOLS:

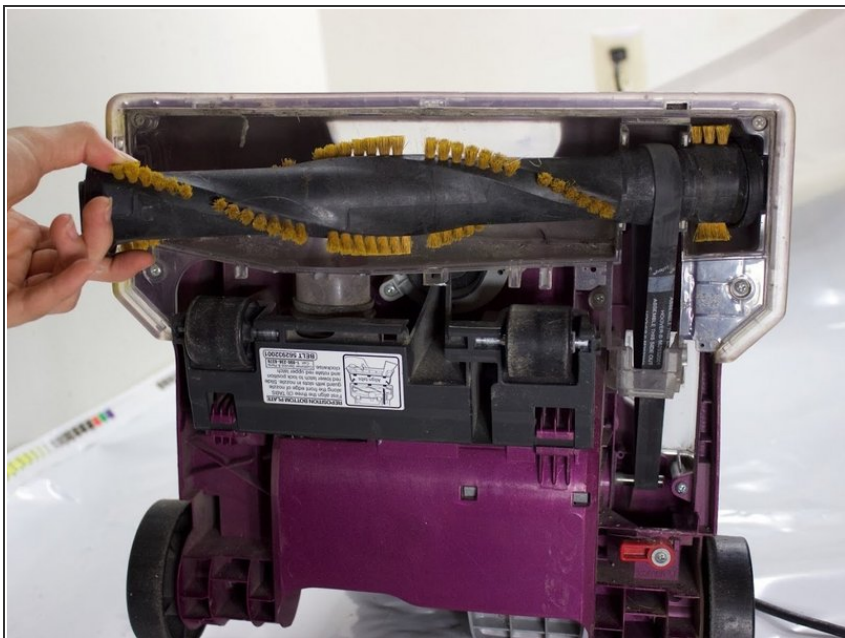

- [Fingers](#) (1)
-

## Step 1 — Brush Roll

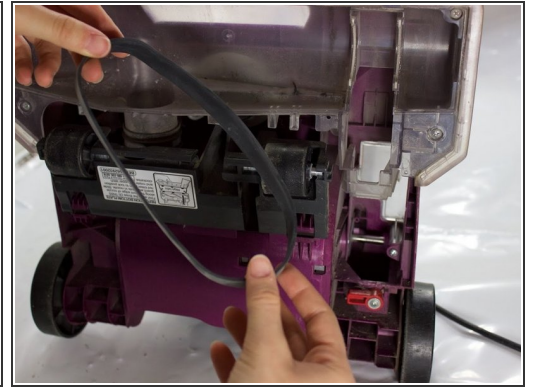

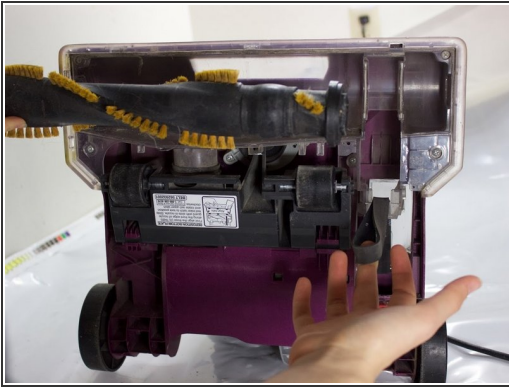

- Push the red release lever to the right.
- Turn the red switch counterclockwise.
- Tilt the bottom of the plastic tray out towards you and pull it off the vacuum.

## Step 2

- Pull the brush roll out of vacuum.
- Remove the belt from brush roller

## Step 3 — Belt

- Remove the belt that's to the right of where the brush roll was by pulling the bottom off of the pin.

To reassemble your device, follow these instructions in reverse order.
