

Hoover T-Series WindTunnel Pet UH70102 Dust Filter Replacement

How to remove and clean or replace your dust filter.

Written By: Sophia Stockburger

INTRODUCTION

This guide is intended to help you remove your dust filter. This filter can be rinsed if dirty, or replaced if old or dysfunctional. This step should start with the vacuum unplugged.

TOOLS:

- [Fingers](#) (1)
-

Step 1 — Dust Filter

- Push silver tab located towards top of vacuum to remove dirt cup from vacuum.
- Press the tab below the Hoover logo to open the lid of dirt cup.

Step 2

- Remove the filter from the top.
- ⓘ Rinse under tap water, dry for 24 hours in the sun, and put back in place.

To reassemble your device, follow these instructions in reverse order.
