

How do I remove pilling from my Vaude pullover?

We show you how to remove pilling from your Vaude pullover by using a fabric shaver.

Written By: VAUDE Reparaturteam

INTRODUCTION

Some types of fabrics (i.e. wool) or areas that see a lot of friction (i.e. under shoulder straps) are susceptible to pilling. You can remove these fuzz balls with a fabric shaver.

TOOLS:

- [Pilling Shaver \(1\)](#)

Step 1 — How do I remove pilling from my Vaude pullover?

- Lay out the garment on a flat surface. Plug in the shaver and turn it on.
- Follow the instructions that came with the shaver.

Step 2

- Shave the affected area.
- By using special care-products for fleece cloth such as Nikwax Polar Proof Impregnation, you can increase the durability of your fleece products and reduce pilling effectively.
