

How do I repair taped seams on my Vaude jacket?

We show you how you can reattach the taped seams on Vaude clothing in just a few steps.

Written By: VAUDE Reparaturteam

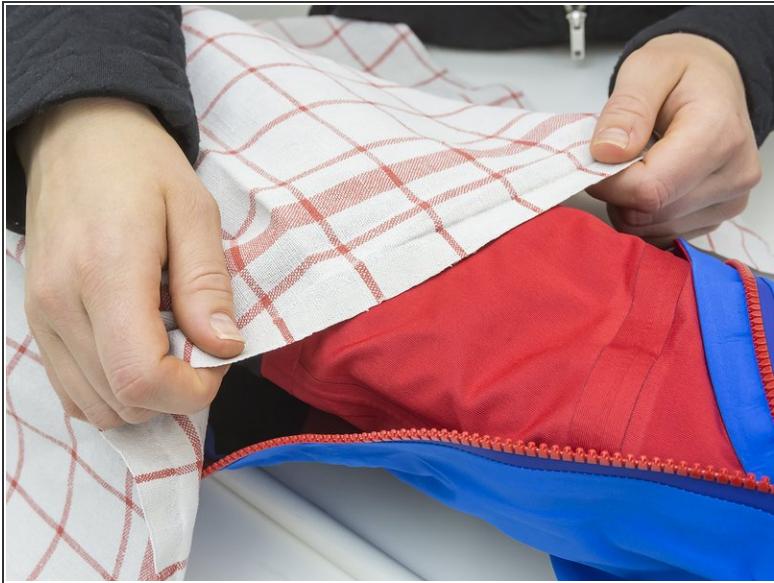

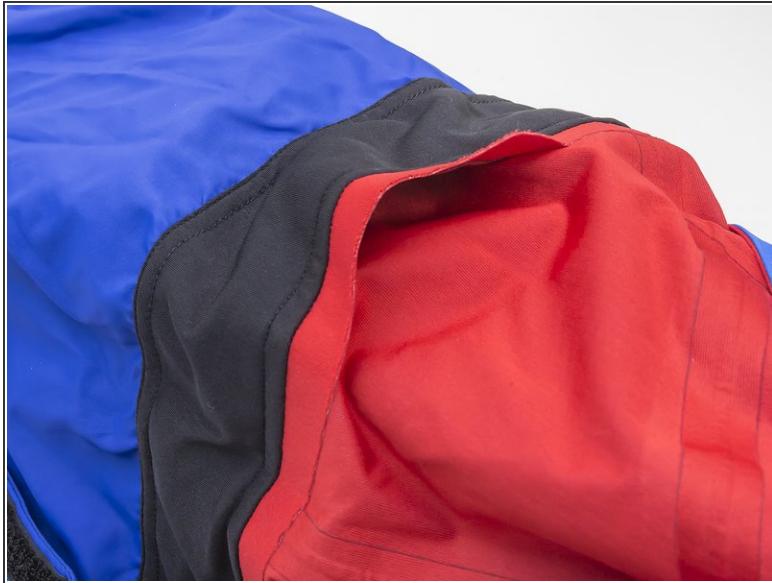

INTRODUCTION

Taped seams can occasionally separate from a jacket due to incorrect product care or other outer influences. It takes just a few steps to reattach them – we'll show you how here.

TOOLS:

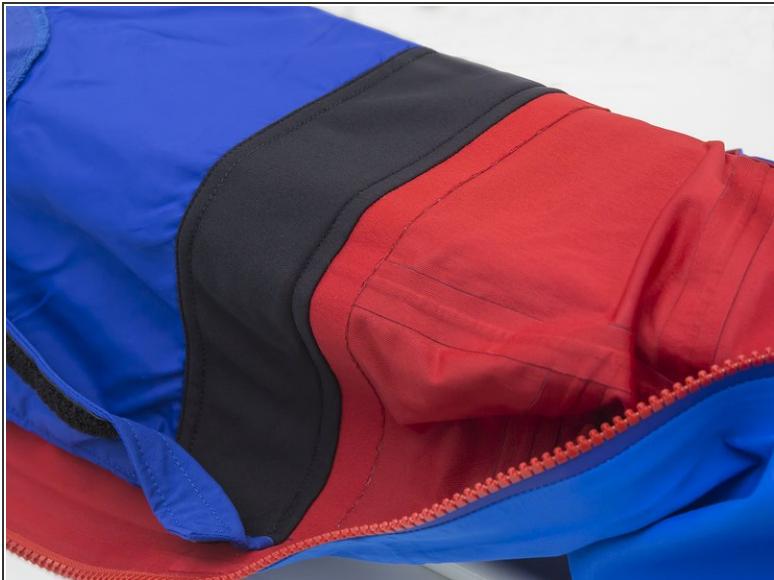

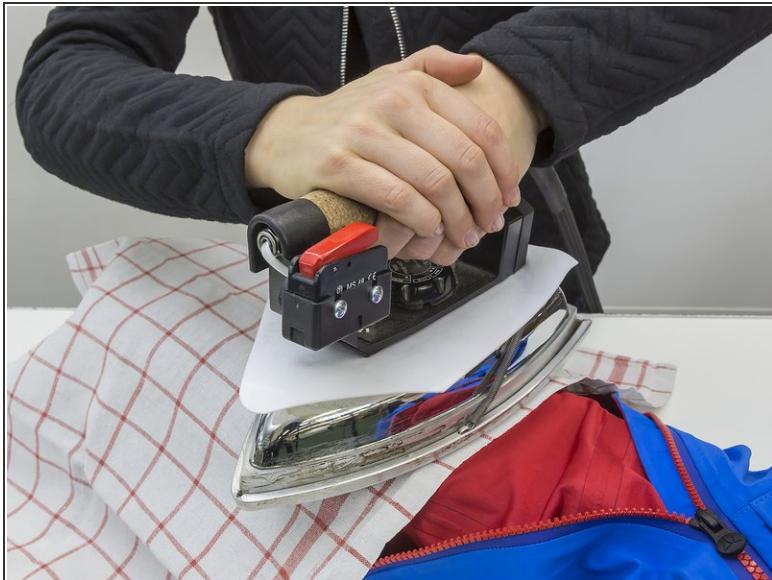

- [Flat iron \(1\)](#)
- [Dish Towel \(1\)](#)

Step 1 — How do I repair taped seams on my Vaude jacket?

- Set the iron at 150 °C maximum. Lay the dish towel on the affected area.

Step 2

- Press the iron down firmly on the affected area. Wait 10 seconds. Repeat if necessary.
