

# How do I set up multiple Canary devices?

in the following guide, we know the process to set up canary devices.

Written By: vididyqa

## INTRODUCTION

- Swipe down on the home screen.
- Touch devices
- Touch Add canary.
- Touch an existing address if you want to add multiple Canarian devices to a single site, or touch a new address to add this device to a new site.
- Select the type of your canary device.
- Follow the same on-screen instructions that guide you during the first canary formation.

**Note:** For each additional canary, follow the same steps that you took to prepare your first canary.

For more visit: ["Setup Canary Camera"](#).

To reassemble your device, follow these instructions in reverse order.
