

How to Check the Backlight

Not sure if your screen is working? Start Here!

Written By: Aiden Baker

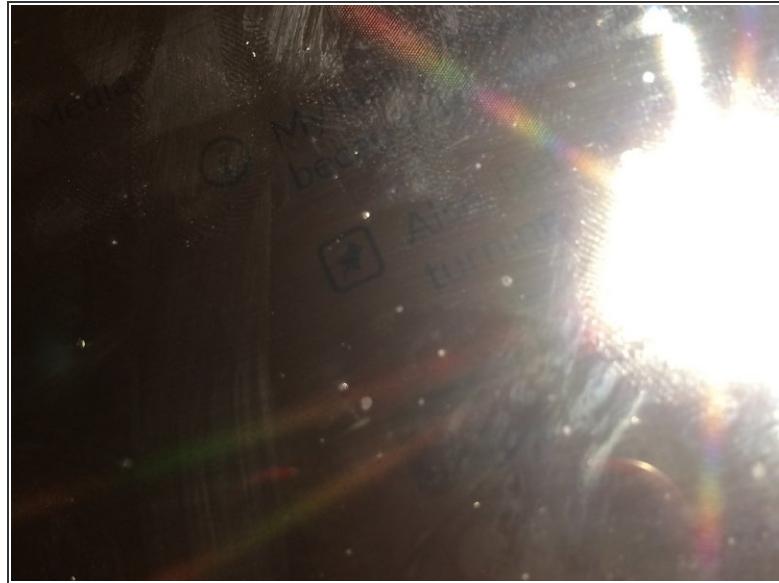

INTRODUCTION

This is how you test your backlight. Figuring out whether or not your backlight works is easy. it also helps narrow down the problem.

TOOLS:

- [Flashlight](#) (1)

Step 1 — How to Check the Backlight

- ⓘ My laptop's backlight is turned off because I'd rather not break my screen for this guide...
- ⚡ Also, Before you start, have you tried turning up the brightness?
- ⓘ This is a laptop with a display that shows nothing.
 - Shining a light on the display, you can see a faint image.

That was simple. Show the world you completed this guide by pushing the button below! It will inspire more people to too! Happy Fixing!
