## INTRODUCTION

I have a Garmin Vivoavtive 3 and my husband has a Garmin Fenix 3...both have had problems with Bluetooth pairing.

I have found a solution to the pairing issues with the Garmin watches.

## Step 1 — How to fix phone pairing dramas with Garmin vivoavtive 3

- We have found the solution. Clear the cache on your phone! Easy as that! The Google pixel phone doesn't have a partition but clearing the app cache is sufficient...go into settings, apps and notifications, app info, garmin connect app, storage, clear cachet.

To reassemble your device, follow these instructions in reverse order.
